Julian,

Thank you for your support of the 2022 Sports Officiating Summit – **Make Officiating Count: Impact, Value, Respect, Reach.** The Denver Summit was NASO’s 40th annual gathering. It was our first in-person Summit since 2019.

When we decided to meet in-person for 2022, we did not know how that would turn out. Well, it turned out far beyond our expectations. Attendance was robust and, almost double what we had originally predicted. That gladdened our hearts!

As for Summit Support Organizations (SSO), we were blessed with a historic number of those. 92 organizations, governing bodies and companies all chipped in to make the 40th Summit one of our best.

The support from every SSO is vital in permitting us to carry on with this important event.

Our Industry has just one national meeting a year. That meeting needs to have discernible and lasting value. The Sports Officiating Summit is fulfilling that requirement. NASO is committed to serve as the facilitating organization for this important gathering and for the 2022 event, you helped make it happen. Take pride in that. We do.

We look forward to having you with us in Riverside, CA next year. I just bet our 41st Summit will achieve a high watermark of attendance, State Day participation and Summit Support Organizations.

Again, a most sincere “thank you” for all your support.

Sincerely,

Barry Mano
President

Good to see you!
