RE: SY 2022-2023 Nutrition & Physical Activity Report and AHG Report

In December of 2016, Bullitt County Public Schools partnered with The Alliance for a Healthier Generation (AHG) as part of a Wellness Initiative to help create and sustain healthier school environments. In addition to the Healthy Schools Assessment, the AHG is using an additional index called the RISE Index to help measure the effectiveness of creating such environments; the RISE Index is The Resilience in School Environments (RISE) Initiative which empowers schools to create safe and supportive learning environments by developing policies and practices that improve the social-emotional health of all students and staff. With the 22-23 school year, the AHG generated another assessment called The Thriving Schools Integrated Assessment which is an evidence-based self-assessment tool to support districts and schools in identifying strengths and opportunities for improvement regarding policies and practices that promote student achievement and the well-being of students, staff, and teachers. A key benefit in this collaboration is the opportunity to use the Alliance's assessment tools as an addition to the Nutrition and Physical Activity Report in the evaluation and recommendations relating to KRS 158.856 and to the Healthy Hunger Free Kids Act of 2010.

Attached are the preliminary reports from the Alliance for a Healthier Generation for the 2022-2023 Nutrition & Physical Activity Report. This report is for review and must be posted for public comment.

This material is for review only. No action is required at this time.
