

**Grandview Elementary
November Board Report
December 14, 2022**

Great things are happening at GES.....

Bengals Hometown Hero

Our very own Rob Sanders, will be recognized by Sam Hubbard as a Bengal's Hometown Hero at the game on Sun, Dec 11th! He has worked closely this school year with the Sam Hubbard Foundation. We are so proud and excited that the Tri-State area will be introduced to our wonderful Grandview Hero!

Grandview Audit

Beginning the afternoon of December 5 and running through December 8, Grandview participated in an audit by Cognia as required by KDE based on accountability scores. We look forward to receiving their feedback at the end of January.

Santa Shop

The students loved buying gifts for their family, friends and themselves. 😊 Thank you to Rob Sanders, Kim Swartz, BHS students and all the PTA volunteers.

PLC Meetings- Data Informed

We have shifted our PLC meeting focus to be more data informed by bringing completed formative assessments and data. We have always discussed MAP, KAS and summative assessment scores. However, test results are just one more piece of information that can be helpful in determining student needs. Data generated from formative assessments are from a given point in time. Our professional learning community have shifted our focus to intentionally use formative assessment to identify student learning and instructional patterns. Patterns do not always arise solely from our summative assessments, benchmark assessments or state test scores alone.

GES Teacher Commitments

- Kentucky Standards
- The Bellevue Classroom
 - Community
 - Discourse
 - Thinking Strategies
 - Workshop Model
- Follow GES Master Schedule
- Weekly lesson plans submitted in Google drive
- Send weekly grade level newsletters in Thursday folder (display on bulletin board)
