Update/Review**

The 2022 KHSAA Esports Winter Championships marked the highest attended event since moving the state championships to the UKFCU Esports Lounge.

We had to overcome initial setup issues with Mario Kart that pushed us off schedule to start the day, but were able to make adjustments to get back on schedule with the other titles.

Registration closes this week for the 2023 Spring Season, which is offering NBA2K for the first time as a potential state-sanctioned offering. The Spring Championship is tentatively scheduled for April 26, 2023.
