Gentlemen,

I'm sure the die is cast and I know how difficult it is to put these things together, but I do not feel like I would be doing my job if I didn't at least reach out on our schools behalf about the proposed alignment.

We feel we may be moved to a different district for two teams to play up out of their class. We understand that there are 6A schools that went down that would likely replace them and we could very well be in the same position, but at least that would be an easier pill to swallow. It just seems that if you are going to have a system built on the number of students then it should follow those rules. Also North Hardin is closer (not by a large distance) to every school in our new district than we would be.

At the end of the day we are going to suit up and go play whoever is on our schedule, but again I felt like I at least needed to let it be known how we feel about the potential realignment.

Thanks for all you do,

--
