Topic	Sports Report
Sports Report	
Sport	Fall Football
Positive Developments and Highlights	Most of the discussion during the tail end of the season and during the offseason has centered around the alignment for future years. Most schools totally understand the fact that it will be late due to COVID and look forward to the day when the alignment is completed with a year or more to schedule contests.
Issues of Concern (legal, playing Rules, fiscal management, etc.)	Stadium costs continue to increase with changes in minimum wage levels and will need in the future to be transferred to ticket holders in terms of ticket pricing.
Championship Update/Review	The 2022 Football Finals held at Kroger Field in Lexington were an unqualified success. The regular season was fairly smooth with minimal problems. It will be interesting to see the feedback from the alignment and when district numbers are assigned, especially when they see which teams are in the "sister" districts for which the coaches fought so hard to play.
Officials Update/Review	Our assigners relay continuing issues with the shortage of officials and the lack of numbers to train new officials.
Staff and Worker Update	NONE
Fiscal and Budget Issues and Review (attendance, etc.)	Attendance was strong, buoyed of course by great matchups and good weather for five of the six games
Noteworthy Changes / Anticipates Changes	None, except that an agreement has been reached to extend the finals to Kroger Field through 2026
