Dear Mr. Tackett,

I am requesting consideration to allow Grayson County High School to play in District 4 instead of District 2. We have been in a district with North Bullitt and Bullitt Central before so there is precedent. Grayson County High School is located on the Western Kentucky Parkway. We can get to an I-65 N exit in 25-30 minutes (Elizabethtown). From there we could easily get to either Bullitt County School. District 2 we would take back roads to all the Bowling Green Schools.

Also I am going to be totally honest with you, I am very concerned about our Participation numbers if we stay in District 2. We would be guaranteed 3 running clocks a year from Greenwood, South Warren, and Bowling Green. The BG and South Warren running clocks will be 1st quarter running clocks. I don't know what the motivation for students to come out and play if that is happening for 4 straight years. I am not requesting to move to District 4 because I think we can win it, I just don't think the losses will be as bad.

I apologize if this comes off as me trying to handpick my district, I am just trying to do what's best for the students at Grayson County High School.

Thank you for your consideration,

Jason Kinkade  
Athletic Director
