

A1 Schools	CSI/TSI/ATSI	Significant Gap for 2 Years	2022-2023 CSIP GAP Objective(s)
Alex R Kennedy Elementary			By May 2023, African American students will meet 30% Proficient/Distinguished in READING.
Atherton High			By the end of the 2022-2023 school year, African American reading proficiency will increase from 33% to 50%. By the end of the 2022-2023 school year, African American mathematics proficiency will increase from 21% to 50%.
Atkinson Academy	TSI		By May of 2023, students identified as white will increase in student achievement in KSA Reading from 18% to 46.7%. By May of 2023, students with disabilities (IEP) will increase in student achievement in KSA Reading to 19.8%.
Auburndale Elementary			By May of 2023, we will increase the percent of Proficient and Distinguished of Black/African American students by 5% in reading and math.
Audubon Traditional Elementary			By May 2023, our ECE students will increase in student proficiency on KSA reading from 21.0% to 46.4%.
Ballard High	ATSI	Disability	By May 2023, ECE students will increase achievement on KSA Reading from 16% to 27.3% By May 2023, 85% of ECE students will graduate. By May 2023, 30% of ECE students will meet post-secondary readiness benchmarks.
Barret Traditional Middle			By the end of the 2022-23 school year, our school will increase our % P/D to 49.7% in Reading for African-American students as measured by KSA. By the end of the 2022-2023 school year, 65% of students will meet their expected Fall to Spring growth in Math as measured by KSA.
Bates Elementary			The percentage of AA students will increase in student achievement in KSA Reading from 28% (May 2022) to 45.8% (May 2023). The percentage of AA students will increase in student achievement in KSA Math from 22% (May 2022) to 45.8% (May 2023).
Blake Elementary	TSI		By May 2023, students identifying as Black or African American will increase student achievement in KSA math from 4% to 10%.
Bloom Elementary			By May of 2023, African American students will increase in student achievement on the Reading KSA from 20% proficient and distinguished to 24.6% proficient and distinguished. By May of 2023, African American students will increase in student achievement on the Math KSA to 15.7% proficient and distinguished. By May of 2023, Economically Disadvantaged students will increase in student achievement on the Math KSA from 20% proficient and distinguished to 24.6% proficient and distinguished.
Blue Lick Elementary	TSI		By 2023, 30.5% of students are expected to be proficient or above in reading for students with an IEP. By 2023, 27.8% of students with an IEP are expected to be proficient or above in Math. By 2023, 40.3% of students are expected to be proficient or above in reading for African American Students. By 2023, 42.8% of students are expected to be proficient or above in math for African American students. By 2023, 54.4% of students are expected to be proficient or above in reading for non english learners. By 2023, 48.2% of students are expected to be proficient or above in math for non english learners.
Bowen Elementary			By May 2023, Bowen Elementary will increase ECE student achievement in KSA Reading from 24% to 31.3%.
Brandeis Elementary			By May of 2023, African American students will increase in student achievement in KSA Mathematics from 27.0 proficient or above to 46.8
Breckinridge-Franklin Elementary	TSI		By May of 2023, total tested ECE students will increase student achievement in Math from 11% to 16% P/D. By May of 2023, total tested ECE students will increase student achievement in Reading from 14% to 20% P/D.
Butler Traditional High	TSI		By May of 2023, all student demographic gap groups (African American, ECE, and Economically Disadvantaged) will increase in KSA student achievement -- (Reading Index) African American Students: from 34.3% to 36.3% and (Mathematics Index) African American Students: from 26.4% to 28.4%. By May of 2023, all student demographic gap groups (African American, ECE, and Economically Disadvantaged) will increase in KSA student achievement -- (Reading Index) ECE Students: from 22.2% to 24.2% and (Mathematics Index) ECE Students: from 19.4% to 21.4%. By May of 2023, all student demographic gap groups (African American, ECE, and Economically Disadvantaged) will increase in KSA student achievement -- (Reading Index) Economically Disadvantaged: from 38.6% to 40.6 and (Mathematics Index) Economically Disadvantaged: from 31.8% to 33.8%
Byck Elementary	CSI		Byck Elementary will increase the percentage of English Learners scoring at the proficient / distinguished level on the reading state assessment to 23.5% by 2023. Byck Elementary will increase the percentage of Students with Special Needs scoring at the proficient / distinguished level on the reading state assessment to 19.3% by 2023. Byck Elementary will increase the percentage of Students with Special Needs scoring at the proficient / distinguished level on the mathematics state assessment to 13.6% by 2023.
Camp Taylor Elementary	TSI		By May of 2023, Camp Taylor will increase African American student achievement in Reading proficiency from 28% to 29.5% as measured by KSA. By May of 2023, Camp Taylor will increase African American student achievement in Math proficiency to 25% as measured by KSA. By May of 2023, Camp Taylor will increase students with IEP's achievement in Reading proficiency to 20.5% as measured by KSA. By May of 2023, Camp Taylor will increase students with IEP's achievement in Math proficiency to 24.3% as measured by KSA.
Cane Run Elementary	CSI		By May of 2023, AA students will increase in student achievement in KSA reading from 8.3% to 12.7%. By May of 2023, 10% of our ECE students will be proficient in reading as measured by the KSA.
Carrithers Middle	TSI		ECE students will reach the KDE SRC target of 20% P/D in reading by the end of SY 22-23. Vital signs predict 14.7%. African American students will reach the KDE SRC target of 31% P/D in reading by the end of the SY 22-23. Vital signs predict 22.4%

A1 Schools	CSI/TS I/ATSI	Significant Gap for 2 Years	2022-2023 CSIP GAP Objective(s)
Carter Traditional Elementary			By May 2023 African American Students will increase achievement in math from 20.0 to 46.6. By May 2023, African American Students will increase achievement in reading from 27.0 to 50.0.
Central High Magnet Career Academy	TSI		By May of 2023, African American students will increase in student achievement in 41.5% proficiency in Reading. By May of 2023, African American students will increase in student achievement in Mathematics to 25.9% proficiency.
Chancey Elementary			By May 2023, African American students are expected to go from 36% (KSA 2022) proficient and distinguished achievement in reading to 42.8 % By May 2023, African American students are expected to go from 11% (KSA 2022) proficient and distinguished achievement in math to 35.7 %
Chenoweth Elementary	TSI		Reading: By May of 2023, African American student proficiency on KSA will increase from 13% to 30%. Math: By May of 2023, African American student proficiency on KSA will increase from 7% to 30%.
Cochran Elementary	TSI		(% proficiency to achieve in Reading by May 2023) AA: From 19.0% to 35.2 % (% proficiency to achieve in Reading by May 2023) EL: From 9.1% to 12.6%
Cochrane Elementary			By the end of the 2021-2022 school year, our school will reach an average combined 36.7% Proficient/Distinguished in combined Reading/Math on KSA for Free/Reduced-Price Meals students. By the end of the 2022-2023 school year, our school will reach an average combined 39.7% Proficient/Distinguished in combined Reading/Math on KSA for Free/Reduced-Price Meals students.
Coleridge-Taylor Montessori Elementary	CSI		By May of 2023, CTM will increase the percentage proficient/distinguished Black or African American 3rd, 4th, and 5th grade students Economically Disadvantaged, students in Reading, respectively to 20% and 21% and in Mathematics, respectively to 11% and 13% as measured by the state assessment.
Conway Middle	CSI		While there was no statistically significant gap in 2018-19, the Gap Difference was 21.7, 8.9, and 27.1 between White and Black students, Paid Lunch and F/R Lunch, and Students without disabilities and those with disabilities, respectively. By 2022, the gap will be 18.7, 7.7, and 23.4 in those same comparison groups.
Coral Ridge Elementary			25% of our African-American students will raise their reading scores out of the novice level on KSA by 2023.
Crosby Middle	TSI		By May of 2023, African American students will increase in student achievement in reading from 11% to 33.8% By May of 2023, African American students will increase in student achievement in mathematics from 10% to 25.6%. By May of 2023, By May of 2023, African American students will increase in student achievement in writing from 6% to 13.1%.
Crums Lane Elementary	TSI		By May 2023, 39% of all tested African American Crums Lane Elementary students will score proficient / distinguished on KSA Reading, an increase of 4%.
Dixie Elementary	CSI		By May of 2023, African American students will increase in student achievement in math from 7% to 13% proficient/ distinguished. By May of 2023, African American students will increase in student achievement in reading from 9% to 15% proficient/distinguished.
Doss High	TSI		By the close of the 22-23 academic year, Doss High School will move toward closing the Achievement Gap in Reading for the four identified groups: a) White: increase from current 43% to 46%, b) Black: increase from current 13% to 16%, c) Hispanic: Increase from current 25% to 28%, d) FRL: increase from current 24% to 27% By the close of the 22-23 academic year, Doss High School will move toward closing the Achievement Gap in Math for the four identified groups: a) White: increase from current 30% to 33%, b) Black: increase from current 12% to 15%, c) Hispanic: Increase from current 17% to 20%, d) FRL: increase from current 19% to 22%. By the close of the 22-23 academic year, Doss High School will move toward closing the Achievement Gap in Writing for the four identified groups: a) White: increase from current 20% to 23%, b) Black: increase from current 5% to 8%, c) Hispanic: Increase from current 14% to 17%, d) FRL: increase from current 9% to 12%.
Dunn Elementary	TSI	African American	By May 2023, 40% of Economically Disadvantaged students will score Proficient/Distinguished as measured by the KSA. By May 2023, 40% of African American students will score Proficient/Distinguished as measured by the KSA.
Dupont Manual High			By May of 2023, tested African American students will increase in student achievement in Math from 45% to 48%.
Eastern High	TSI	African American; Disability	30% of all ECE students will score P/D in Reading by 2023. 30% of all AA students will score P/D in Reading by 2023. 20% of all ECE students will score P/D in math by 2023. 25% of all AA students will score P/D in math by 2023.
Eisenhower Elementary			By May of 2023, in Reading, as measured by the KSA, 38.4% of African American students will perform at Proficiency or higher. By May of 2023, in Math, as measured by the KSA, 32.2% of African American students will perform at Proficiency or higher.
Engelhard Elementary	CSI		By the end of the 2023 school year, our school will increase the percentage of African American students meeting proficiency/distinguished on Kentucky Summative assessment. (R: 46.5%, M: 41.5%,)
Fairdale Elementary	TSI		By May 2023, ECE students will increase from 16% P/D in Math to 26% and from 19% P/D in reading to 29% in reading. By May 2023, Hispanic students will increase from 20% P/D in math to 30%. By May 2023, African American students will increase from 22% P/D in reading to 32%.

A1 Schools	CSI/TS I/ATSI	Significant Gap for 2 Years	2022-2023 CSIP GAP Objective(s)
Fairdale High	TSI		By May 2023, Fairdale High School will increase Postsecondary Readiness among African American students from 56.7% to 59%. By May 2023, Fairdale High School will increase Postsecondary Readiness among ECE students from 14.7% to 16% By May 2023, Fairdale High School will increase Postsecondary Readiness among ELL students from 29.7% to 32%.
Farmer Elementary			By May 2023, 65% of our AA students will make growth at or above the 50th percentile in MAP Reading.
Farnsley Middle	TSI	Disability	The percentage of students meeting or exceeding projected growth in Reading MAP will increase from 49.5% in the Spring to 52.6% by Spring 2023. The percentage of students meeting or exceeding projected growth in Math MAP will increase from 19.9% in the Spring to 30% by Spring 2023.
Fern Creek Elementary	TSI		By May 2023, Fern Creek Elementary will reach 37.9% proficient/distinguished in the demographic group African American/Black in reading. By May 2023, Fern Creek Elementary will reach 35.7% proficient/distinguished in the demographic group African American/Black in math. By May 2023, Fern Creek Elementary will reach 23.3% proficient/distinguished in the demographic group African American/Black in science. By May 2023, Fern Creek Elementary will reach 38.5% proficient/distinguished in the demographic group African American/Black in social studies. By May 2023, Fern Creek Elementary will reach 41.4% proficient/distinguished in the demographic group African American/Black in writing. By May 2023, Fern Creek Elementary School will reach 53.6% proficient/distinguished in the demographic group Hispanic in reading. By May 2023, Fern Creek Elementary School will reach 25% proficient/distinguished in the demographic group Hispanic in math. By May 2023, Fern Creek Elementary School will reach 25.6% proficient/distinguished in the demographic group Hispanic in science. By May 2023, Fern Creek Elementary School will reach 44.5% proficient/distinguished in the demographic group Hispanic in social studies. By May 2023, Fern Creek Elementary School will reach 29.3% proficient/distinguished in the demographic group Hispanic in writing. By May 2023, Fern Creek Elementary School will reach 38.1% proficient/distinguished in the demographic group English Language Learners plus monitored in reading. By May 2023, Fern Creek Elementary School will reach 30.2% proficient/distinguished in the demographic group English Language Learners plus monitored in math. By May 2023, Fern Creek Elementary School will reach 17.7% proficient/distinguished in the demographic group English Language Learners plus monitored in science. By May 2023, Fern Creek Elementary School will reach 13.5% proficient/distinguished in the demographic group English Language Learners plus monitored in social studies. By May 2023, Fern Creek Elementary School will reach 13.5% proficient/distinguished in the demographic group English Language Learners plus monitored in writing. By May 2023, Fern Creek Elementary will reach 17.6% proficient/distinguished in the demographic group Students with Disabilities (IEP) in the content area of reading. By May 2023, Fern Creek Elementary School will decrease the number of novice students in the demographic group Disability-with IEP to 50% in reading. By May 2023, Fern Creek Elementary will reach 14.8% proficient/distinguished in the demographic group Students with Disabilities in math. By May 2023, Fern Creek Elementary School will decrease the number of novice students in the demographic group Disability-with IEP to 60% in math.
Fern Creek High	TSI		By May of 2023, African American students will increase in student achievement in KSA READING from 26% to 28.6%. By May of 2023, African American students will increase in student achievement in KSA MATH from 0% to 17.4%. By May of 2023, ECE students will increase in student achievement in KSA READING from 0% to 25.1%. By May of 2023, ECE students will increase in student achievement in KSA MATH from 0% to 11.7%. By May of 2023, EL students will increase in student achievement in KSA READING from 0% to 12.5%. By May of 2023, EL students will increase in student achievement in KSA MATH from 0% to 12.5%.
Field Elementary			By May 2023, students with Disabilities IEP will increase in student achievement on KSA Math from 23.0 to 37.9
Foster Traditional Academy	CSI		By May 2023, students with disabilities (IEP) will increase achievement on KSA Reading to 16.4%. By May 2023, students with disabilities (IEP) will increase achievement on KSA Mathematics to 9.1%.
Frayser Elementary	CSI		By May 2023, FES will increase the percentage of AA students performing P/D in Reading and Math by 10% (Reading 25% and Math 24%).
Frederick Law Olmsted Academy North	CSI		18.5 percent of African American students will score at the P/D levels on the KPREP reading assessment by 2023. Increase the time in class for African American students by decreasing the number of suspensions of African American students by 32 percent by 2023.
Frederick Law Olmsted Academy South	CSI		Minimize referral rates from 24.1% overall and 35% African American to under 15% both overall and for African American students Double P/D performance of African American students in reading to eliminate the gap between white and AA students, from 18% P/D to 36% P/D. Double P/D performance of African American students in reading to eliminate the gap between white and AA students, from 11% P/D to 22% P/D.
Goldsmith Elementary	TSI		By May of 2023, Black students will increase in student achievement in KSA Reading from 16.0 to 40.4. By May of 2023, Black students will increase in student achievement in KSA Math from 12.0 to 35.5.
Greathouse/Shryock Traditional			By May of 2023, total tested African American students on grade level will increase from 60% to 65% (math); 68% to 72% (reading); 13% to 20% (science); 30% to 35% (soc. studies) as measured by KSA. By May of 2023, total tested students with a disability on grade level will increase from 40% to 45% (math) and 47% to 52% (reading) as measured by KSA.

A1 Schools	CSI/TS I/ATSI	Significant Gap for 2 Years	2022-2023 CSIP GAP Objective(s)
Greenwood Elementary	TSI		By May 2023, KSA Reading P/D will increase for African-American students from 20% to 25%. By May 2023, KSA Reading P/D will increase for students with disabilities from 6% to 11%.
Gutermuth Elementary	TSI		By May 2023, our African American students will increase in student achievement in Reading 12% to 36%. By May 2023, our African American students will increase in student achievement in Math 0% to 25.9%. By May 2024, our African American students will increase in student achievement in Reading 12% to 39.2%. By May 2024, our African American students will increase in student achievement in Math 0% to 29.6%.
Hartstern Elementary	TSI		By May of 2023, all ECE students will increase in student achievement in KSA Reading from 28.3 % to 30.3%. By May of 2023, all ECE students will increase in student achievement in KSA Mathematics from 19.2% to 21.2%
Hawthorne Elementary			By May 2023, African American students will move from 4.8% proficient/distinguished to 7% proficient/distinguished in math as measured on KSA. By May 2023, students with IEPs will move from 23% proficient/distinguished to 25% proficient/distinguished in math as measured on KSA.
Hazelwood Elementary			By May 2023, fourth-grade White (non-hispanic) students will decrease the percentage scoring novice in math from 73% to 65.7%. By May 2023, fifth-grade male students will decrease the percentage scoring novice in math from 64.% to 57.6%. By May 2023, fifth-grade Non-ELL students will decrease the percentage scoring novice in math from 70% to 63%.
Highland Middle	TSI	Disability	Objective 1b: By the end of the 2023-2024 school year, Highland African-American students will reach 20% proficient and distinguished in Math. Objective 1c: By the end of the 2022-2023 school year, Highland's English Language Learners will reach 20% proficient and distinguished in Math. Objective 1d: By the end of the 2023-2024 school year, Highland's English Language Learners will reach 25% proficient and distinguished in Math. Objective 1e: By the end of the 2022-2023 school year, Highland's Free and Reduced Lunch students will reach 22% proficient and distinguished in Math. Objective 1f: By the end of the 2023-2024 school year, Highland's Free and Reduced Lunch students will reach 30% proficient and distinguished in Math. Objective 1g: By the end of the 2022-2023 school year, Highland's Disabled students will reach 10% proficient and distinguished in Math. Objective 1h: By the end of the 2022-2023 school year, Highland's Disabled students will reach 15% proficient and distinguished in Math.
Hite Elementary			By May 2023, African American students will meet the goal of 50.6% of P/D for Reading. By May 2023, ECE students will meet the goal of 31% of P/D for Reading. By May 2023, Hispanic/Latino students will meet the goal of 87% of P/D for Reading.
Indian Trail Elementary	CSI		By May 2023, all students identified as economically disadvantaged will increase on the index from a 21.8 to 25 in Math. By May 2023, all students identified as economically disadvantaged will increase on the index from 31.8 to 35 in Reading.
Iroquois High (& Turnaround Plan)	CSI		By the end of the 2023 school year, our school will increase our %P/D to 25.3% in Reading and 23.8 % in Math for African-American students.
J. Graham Brown School			By May 2023,, 98% of students will experience the gold standard of Project-Based Learning in each of their classes a minimum of two times. By May 2023, 98% of students in elementary, middle, and high will reflect on their own data and design learning goals/action plans targeted toward areas of growth. By May 2023, 100% of teachers will use culturally relevant high-yield strategies.
Jacob Elementary	CSI		By 2023 KPREP, the P/D percentage for African-American students will increase to 32.7%, 39.8% for Free/Reduced Lunch students, & 18.2% for students with an IEP, in reading.
Jefferson County Traditional Middle			By May of 2023, African American students will increase in student achievement in MAP Reading from 57.6% to 67.6% and in MAP Mathematics from 33.5% to 48.5%.
Jeffersontown Elementary	TSI		By May 2023, students who are African American will meet the P/D goal of 43.2% on KSA Reading and 26.9% on KSA Mathematics. By May 2023, students with disabilities will meet the P/D goal of 33.6% on KSA Reading and 23.8% on KSA Mathematics.
Jeffersontown High	TSI		By May, 2023, all African American students will increase P/D in mathematics to 18.3%. By May, 2023, all African American students will increase P/D in reading to 29.8%. By May, 2023, all African American students will increase P/D in writing to 32.4%
Johnson Traditional Middle	TSI		By May 2023, total number of ECE students will increase in student achievement in Reading from 36% to 50% By May 2023, total number of African American students will increase in student achievement in Reading from 16% to 52.2%
Johnsontown Road Elementary	TSI		By May of 2023, all African American students will increase achievement in math from 11% P/D to 16% P/D as measured by KSA.
Kammerer Middle	TSI	African American	By May 2023, african american students will increase in student achievement in KSA Reading from 17.0 to 36.5 and 13.0 to 19.7 in KSA Math.
Kennedy Montessori Elementary	CSI		By the end of the 2022-2023 school year, we will increase our % of proficiency by 3 - 5 percentage points for all GAP groups

A1 Schools	CSI/TS I/ATSI	Significant Gap for 2 Years	2022-2023 CSIP GAP Objective(s)
Kenwood Elementary			By May 2024, African American students will increase in student achievement in KSA Reading from 30% to 40%. By May 2024, African American will increase in student achievement in KSA Math from 18% to 30%.
Kerrick Elementary	CSI		By Fall 2023 Reading and Math proficiency will increase to 20% for African American students as measured on KSA.
King Elementary	CSI		King Elementary will increase proficiency in reading and math for students with disabilities; increasing to 15% in reading and 15% in math as measured by the 2023 KPREP assessment.
Klondike Lane Elementary			By May of 2023, Black students will increase in student achievement in KSA Reading from 33.0 to 38.3. By May of 2023, Black students will increase in student achievement in KSA Math from 18.0 to 24.5.
Knight Middle	TSI		Increase the percentage of students in each of the following gap groups (African-American, Hispanic, Disability with IEPs, and Free/Reduced Lunch) scoring Proficient/Distinguished by 25% and decrease the percentage of students scoring Novice by 15% in reading and math on the Kentucky state assessment by 2023.
Lassiter Middle	TSI		By May of 2023, African American students will improve from 16% toward the target goal of 33.4% in KSA Reading By May of 2023, African American students will improve from 9% toward the target goal of 23.3% in KSA Math. By May of 2023, African American students will improve from 23% toward the target goal of 39% in KSA Social Studies.
Laukhuf Elementary			By May of 2023, African American students will increase achievement in KSA Math from to 46.5.
Layne Elementary	TSI		By May of 2023, in Reading, as measured by the KSA, 29.3% of African American students will perform at Proficiency or higher. By May of 2023, in Math, as measured by the KSA, 23.5% of African American students will perform at Proficiency or higher.
Lincoln Elementary Performing Arts			By May 2023, students in the subpopulations listed will show growth in proficiency in math as indicated: a) African American: 20% to 33% and b) Two or More races: 37% to 50% By May 2023, students in the following subpopulation will show growth in proficiency as in reading indicated: ECE Students: 24% to 40%
Louisville Male High			By May of 2023, African American students will increase in student achievement in KSA reading from 49% proficient or above (2022) to 55.5%. By May of 2023, African American students will increase in student achievement in KSA math from 42% proficient or above (2022) to 45.4%.
Lowe Elementary			African American student group will meet the goal of 35% proficient and distinguished in reading on the 2023 KSA. African American student group will meet the goal of 30% proficient and distinguished in math on the 2023 KSA.
Luhr Elementary	TSI	Disability	By May of 2023, all ECE students will increase in student achievement in KSA Reading from % to 24.3%. By May of 2023, all African American students will increase in student achievement in KSA Reading from 25% to 36.3%
Marion C. Moore School	CSI		From May 2022 - May 2023, our school will increase our 5.6 to 15.0% in Reading for Students with disabilities in the Middle School and% in High School. From May 2022 - May 2023, our school will increase our 1.9% to 10.0% in Math for Students with disabilities in the Middle School and in High School - to 10%
Maupin Elementary	CSI		By 2023, 13.6% of Maupin students who qualify for free and reduced lunch will reach proficiency in reading as measured by the state assessment. By 2023, 13.6% of African American students at Maupin will reach proficiency in math as measured by the state assessment.
McFerran Preparatory Academy	CSI		Reading achievement for students with disabilities will increase by 10%. Moving from 13% P/D on the 2021-2022 KSA to 23% P/D on 2022-2023 KSA. Math achievement for students with disabilities will increase by 10%. Moving from 13% P/D on the 2021-2022 KSA to 23% P/D on 2022-2023 KSA.
Medora Elementary			By May of 2023, African American students will increase in student achievement in KSA Reading from 25% to 30.9%.
Meyzeek Middle	TSI		By May of 2023, total tested African American students will increase in student achievement in Reading from 7.7% to 12% P/D on the KSA. By May of 2023, total tested African American students will increase in student achievement in Math from 7.3% to 12.2% P/D on KSA.
Middletown Elementary			By May 2023, African American students will increase achievement in KSA reading from 23% (KSA 22) to 42.2%.
