

The JGC Theater club is being recognized for their hard work and production of a play. The Theater Club is part of the John G. Carlisle CLC. It is comprised of 4th grade students. During Theater Club sessions, students learned the elements of theater. They spent time learning about writing, scripting, the elements of sound, acting, stage and set design, and costuming. The Theater Club used what they learned about the elements of Theater to write their own original play. During their time creating the play, the members learned to collaborate and be true teammates. The students practiced from September to December and performed their play for parents and students in December. Everyone who saw the play was excited about what the students had created and the students themselves felt great accomplishment after performing the play. Some students have found their own passion and want to write plays of their own in the future. We are so proud of these students and their hard work and creativity.
