

RESOLUTION 2023-1

A RESOLUTION RELATED TO BUDGET PLANNING

The Fayette County Board of Education continues to recognize and appreciate the hard work and dedication of our staff, especially in the trying times of the last three years.

Conservative budget estimates and prudent spending during a challenging economic climate has led to a surplus in the budget, which invests more than 75 percent of general funds into student instruction.

As we thoughtfully begin developing a budget for next year, we resolve to combine that fiscal stewardship and discipline with strong investments in Fayette County Public Schools and make a meaningful increase in compensation for our staff.

Investments in our staff are investments in our students.

Adopted at the Board of Education's regular meeting of February __, 2023.

Attested by: _____

Tyler Murphy
Chair of the Board
