Memo

To: Karen Edwards
From: Jason Wilson
cc: Chris Bentzel
Date: 2/10/2023
Re: Weapons Detection System for CCHS, HHS, and Bluegrass

This memo serves as notice to add an action item on the special called board meeting on 2/13/2023 to vote for the purchase of a weapons detection system for CCHS, HHS, and Bluegrass Learning Academy. The cost for 9 lanes of weapons detection would be \$809,609.80. The system purchase would be through ERS Wireless for the Motorola Concealed Weapons Detection. This includes the weapons detection, facial recognition, software upgrades, service/installation for the units, and training.

Thank you,

Dr. Jason Wilson
