

***Garrard County Schools/Whitaker Bank Teacher of the Month
March 2023***

Louis Kluesener – Lancaster Elementary School

Mr. K is the epitome for teacher of the month. He strives to make a positive impact on his students and to teach them to have that same impact of their communities. Additionally, he truly believes in being a life- long learner and continually works at finding instructional ways for his students to achieve their goals. He has high expectations for his classroom and at the same time develops genuine relationships, so students enjoy a productive struggle in their educational journey.

He is eager to take on additional tasks and I've never heard him say anything negative. He is quick to engage all his students and staff with a "goof morning" and ask about their days. His professionalism is impeccable and truly appreciated.
