New Castle, KY 40050

RE: Property Acquisition of 20 Acres Adjacent to the Henry Co. High School to the South and East -  
Letter regarding potential environmental or safety hazards

Dear Mr. Masters:

Sherman Carter Barnhart has visually inspected the referenced site. We find no evidence of environmental or safety hazards regarding future school use of the property.

Observations:

The site is being used as farmland. No structures exist on site. An existing crude oil line was exposed above grade where it crosses a drainage way, but no evidence of damage or leakage was observed.

Respectfully submitted,

A handwritten signature in black ink that reads "Joseph C. Hutchins".

J. Chad Hutchins, PLA, LEED AP
