ADA Compliance	No
Life Safety	No
Security	No
Minor Project	Yes

Minor Project Description

1) Clean the surface with blowers, scrapers, brooms and pressure spray where necessary. 2) Patch low areas holding water with acrylic crack and leveling compound (crack and leveling compound is designed for patching and crack repair on tennis courts). The low area definition is an area holding water greater than 1/16" (commonly measured with a fivecent piece) one hour following a rain when the temperature is at least 70 degrees. Note: We may not be able to completely remove the water, but we will improve the situation. 3) Clean the cracks using a crack cleaning machine. Fill the cracks with crack and leveling compound. The patches will be grinded smooth and blended with acrylic resurfacer. Note: We recommend the RiteWay crack repair system be installed over the cracks on the court. RiteWay is a series of fabrics installed over structural cracks that prevent them from reappearing for years (RiteWayTennis.com). If cracks are not repaired with RiteWay, they will reappear as hairline cracks once the temperature falls to fifty degrees. They will return to their current condition. RiteWay will not prevent new cracks from appearing. If selected, the additional cost of RiteWay will be added to the base quote. 4) Grind the entire surface to remove small bumps and irregularities—this is like a heavy sanding

RiteWay Crack Repair on 2,100' of cracks at an additional cost of \$46,200. Please note hairline cracks may appear in the paint coatings along the edges and on top of the RiteWay patch. This happens because the paint coatings are not as flexible as the fabric. As the court moves, the paint coating may crack. This is not cause for concern as the crack is in the paint coating and not the asphalt surface. Other fabric systems exist that will not crack the paint

coatings, but they will create a dead-spot on the court. RiteWay is recommended as it plays better than other fabric systems.

New Relocatable Classroom	No
Equipment / Furnishings Procurement	No
