

Grandview Elementary
SBDM Board Report
April 26, 2023

Curriculum Work

Writing

Our final in-person coaching session with Sandy Keaton, Scholastic Writing Consultant, will be on Thurs, April 27th and Fri, April 28th. Observations in each homeroom will be for 15 minutes in the morning. During grade level PLC meetings, we will reflect on our current writing units and discussing next steps.

Math

Jackie Damron, KCM Regional Consultant, will be here for a third and final time on April 25th for round 3 of KMIT observations. Ms. Rozanski and Ms. Damron will conduct a 20-minute observation in 3rd-5th grades with a focus on discourse and questioning.

Curriculum Pacing Guides

The administrative team completed grade level pacing guides for all grades in literacy and math. Next steps are to create science and social studies pacing guides for all grade levels. These guides will be rolled out to teachers during summer professional development. Teachers will collaborate to add learning targets to each content area.

MAP Assessments

Kindergarten through 5th grade Reading and Math Spring MAP assessments will be completed April 18th-21st.

April KDE Visit

Feedback:

- Clear classroom expectations
- Students were working collaboratively
- Smooth transitions
- Instructional time was being used appropriately

KDE Suggested Next Steps:

- Reiterate the professional learning provided regarding learning targets
- Reiterate standards, learning target and instructional task alignment
