

Timestamp	What are we doing well as a district (K-12) in the area of extracurricular opportunities for our students?	What are areas for us to be able to improve for our district K-12?	What are barriers for our students to be able to participate in extracurricular opportunities?	What are extracurricular activities that we could add to offer our students K-12?	We are hosting a Public Forum for Community Input for the Future of our Extracurriculars April 13, 2023 at 5pm in the Board Room at the District Office if you would like to attend. We will be providing a spaghetti dinner at this forum, would you like to attend this forum?	If you are attending the forum, how many people will you be bringing? We need this information in order to make sure we have enough meals prepared.
3/21/2023 9:45:27	The Trade school is one of the best additions so far. Keep no early release calendar. Teachers that I have had interaction with so far have all been great at their job.	Spanish needs to be started at 5th grade level and offered through 12th. JROTC needs to start in the 8th grade and offered through 12th. Need to offer tutoring and always have after school homework help 6th through 12th. Stricter structure.	2 years of no educational structure is the barrier for all of this generation. They are so far behind I don't think they will ever fully recover. It made them lazy, not want to work or learn. They are in the mindset that they deserve it without the struggle of learning or working for an education that will help them learn how to live and survive in the world. 3/23/2023 14:51:32	BETA!! Beta all the way!! Lisa Petrie is amazing! My kids love Beta, they love being included and it is fun.	STLP with middle school stinks. There is little to no communication with parents. Same with Academic team, but STLP was awful. Once kids get in middle school, then high school all communication with teachers is cut off from parents. Parents are not invited or involved. You sink money into basketball and ignore Archery. Do better!!	You need to communicate with parents. I will not allow my child to go to "state" with STLP although she earned the right BECAUSE the ones responsible aren't even responsible enough to tell parents when there is a meeting, an event, an opportunity to learn more. Why would I send her miles away if they can't take care of her in Todd County???	Skate Club for middle and high school kids. Pay attention and better care of the clubs and teams we currently have. Stop being so exclusive.	No, but you should definitely read the surveys and take them to heart.	None.
