Principal & Assistant Principal Summative Evaluation Plan Components

Overview and Summative Model

The following graphic outlines the summative model for the principal and Assistant principals' sources of evidence and performance standards ratings aligned with Performance Measures.

Evaluators will look for trends and patterns in practice across multiple types of evidence and apply their professional judgment to determine the rating on Principal Performance Standards aligned with the Performance Measures of Planning, Environment, Instruction, and Professionalism. The role of evidence and professional judgment in the determination of ratings on standards and an overall rating is paramount in this process. The professional judgment must be grounded in the Principal Performance Standards aligned with the Performance Measures, site visits, Professional Growth Plan, and other sources of evidence. Evaluators will also consider how principals respond to or apply additional supports and resources designed to promote student learning, and their own professional growth. Finally, professional judgment gives evaluators the flexibility to account for a wide variety of factors related to individual Performance Measures. These factors may include school-specific priorities that may drive practice in one standard, an educator's number of goals, experience level and/or leadership opportunities. Contextual variables may also impact the learning environment, such as unanticipated outside events or traumas.

Training to Evaluate

The Superintendent or designee shall be trained annually in the district's Certified Plan for Principals, District Administrators, and Certified Coordinators to evaluate individuals in these categories. Principals shall be trained to evaluate assistant principals. Evaluators shall be provided with district support, resources, and EILA-approved training. The district will ensure that all evaluators complete Initial Certified Evaluation training and thereafter have an annual 6 hour, EILA approved update training on evaluation

per 704 KAR 3:370, Section 6 (d). Evaluators shall meet the state and district CEP requirements prior to conducting evaluations.

Timeline for Late Hires

Employees under this section of the evaluation system hired after the first instructional day shall complete all components of the evaluation process.

Performance Measures to Determine Ratings

The Professional Standards for Educational Leaders are designed to support student achievement and professional best-practice through the standards aligned with the Performance Measures:

- Standard 1--Mission, Vision, and Core Values aligns with the Performance Measure of Planning
- Standard 2--Ethics and Professional Norms aligns with the Performance Measure of Professionalism
- Standard 3--Equity and Cultural Responsiveness aligns with the Performance Measure of Environment
- Standard 4--Curriculum, Instruction, and Assessment aligns with the Performance Measure of Instruction
- Standard 5--Community of Care and Support for Students aligns with the Performance Measure of Instruction
- Standard 6--Professional Capacity of School Personnel aligns with the Performance Measure of Instruction
- Standard 7--Professional Community for Teachers and Staff aligns with the Performance Measure of Environment
- Standard 8--Meaningful Engagement of Families and Community aligns with the Performance Measure of Professionalism
- Standard 9--Operations and Management aligns with the Performance Measure of Planning
- Standard 10--School Improvement aligns with the Performance Measure of Planning

Included in the Professional Standards for Educational Leaders are performance indicators that provide examples of observable, tangible behaviors for evidence of each standard. The Professional Standards provide the structure for feedback for continuous improvement for the Performance Measures through individual goals that target professional growth, thus supporting overall student achievement and school improvement. Each Professional Standard is aligned with the Performance Measures and will be rated according to four ratings in combination with professional judgment.

The Performance Levels are:

- Exemplary--consistently exceeds expectations for effective performance.
- Accomplished--consistently meets expectations for effective performance.
- Developing--inconsistently meets expectations for effective performance.
- Ineffective--consistently fails to meet expectations for effective performance.

Evaluators may use the following categories of evidence in determining overall ratings:

- Professional Growth Planning
- ◆ Self-Reflection
- Site-Visits

- Measures of Student Learning
- Products of Practice
- Other Sources

Products of Practice/Other Sources of Evidence

Principals/Assistant principals may provide additional evidences to support assessment of their own professional practice. These evidences should yield information related to the principal's/assistant principal's practice within the measures. Principals/assistant principals may include items from the following list:

Table 1: Products of Practice/Other Sources of Evidence

Self-reflection improves principal practice through ongoing, careful consideration of the impact of leadership practice on student achievement. The principal shall complete the Professional Growth Plan for collaboration and approval by the Superintendent/Designee, and the assistant principal shall follow the same protocol for collaboration and approval by the principal.

Required:

- ◆ All principals will participate in self-reflection and professional growth planning each year.
- All assistant principals will participate in self-reflection and professional growth planning each year.
- All principals and assistant principals will document self-reflection and PGP in the state-approved technology platform.

Principal Site-Visits

Completed by supervisor of principal

Site visits are a method by which the superintendent/designee may gain insight into the principal's practice in relation to the Principal Performance Standards aligned with the Performance Measures of: Planning, Environment, Instruction, and Professionalism. Site visits may begin after the principal has participated in evaluation training, which must occur within 30 calendar days of reporting for employment. The required number of site visits is the minimum requirement. Additional site visits may be conducted. If necessary, the second site visit will take place prior to April 15. During the follow-up conference with the principal, the superintendent or designee will review all Principal Performance Measures and give feedback using the site visit form about each measure on the district-approved platform or form.

Required:

- Conducted at least once each year prior to January 15.
- Evidences from site visit may be recorded using either the district-approved technology platform or a district approved form/document.
- Review and record evidence from site visit aligned with the Principal Performance Measures and Site Visit Document

Assistant Principal Site-Visit

Completed by principal

Site visits with assistant principals should occur by January 15 and should be documented within the district-approved technology platform or on a district-approved document. If necessary, the second site visit will take place prior to April 15. Conferencing should address measures and provide feedback for professional growth planning.

Required:

- Conducted at least once per year by January 15.
- Evidences from site visit may be recorded using either the district-approved technology platform or a district approved form/document.
- Review and record evidence from site visit aligned with the Principal Performance Measures and Site Visit Document.

Principal Process for Determining the Summative Rating

A summative conference shall occur, annually, at the end of the evaluation cycle to determine an overall summative rating for principals and assistant principals. Superintendents are responsible for determining the summative rating for principals and principals are responsible for determining assistant principal ratings. The process will consist of a review of the evidence provided at site visits and progression in the Principal Performance Standards aligned with the four Performance Measures to assign a summative rating. The evaluator will use the *Criteria for Determining a Summative Rating* (Table 2) to determine the overall Summative Rating. Summative ratings for assistant principals shall be completed by May 15th or no later than 90 days before the first student attendance day, whichever comes first. Summative ratings for principals shall be completed no later than June 15. The principal/assistant principal must be provided either electronic or hardcopy access to all evaluation documents. A hardcopy must be signed and dated by both parties and provided to the district office for the individual's personnel file. Employees shall have an opportunity to provide a written response to all evaluations which shall be placement in the employee's personnel file.

Self-Reflection

Self-Reflection is a process by which educators assess the effectiveness of their instructional planning, implementation, content knowledge, beliefs, and dispositions for the purpose of self- improvement. When educators collect evidence, align it to their standards, then use that evidence and data to study what worked, what did not work, and what types of changes might lead to success, the likelihood of knowing how to improve increases dramatically. Evidence suggests that self-reflection is a critical component of the evaluation process (Airason & Gullickson, 2006; Tucker, Stronge, & Gareis, 2002).

The goal of self-reflection is to improve practices through ongoing thinking on how professional practices impact teacher and student learning. District personnel should conduct the self-reflection using the identified standards. This process will look much like the principal self-reflection. Using the results of the self-reflection, the educator determines the area of growth and identifies at least one area to create the professional growth goal. The attainment of this goal is facilitated through the development of a Professional Growth Plan (PGP) that either develops or enhances professional practices and leadership skills.

Professional Growth Plan

The goal of a PGP is to facilitate the translation of growth needs identified through self-reflection as well as other processes into practical activities and experiences. For example, it may be necessary that professional learning is required to meet the needs of the district to reach a student growth goal. Activities and experiences that are identified as being of value to educators in developing professional practices and leadership skills should be identified growth needs in the PGP. A plan should include opportunities designed to support collaboration, learning, and impact delivery goals of the district. Research shows for professional growth to be effective, it should be a deliberate process that occurs within the context of a professional's daily activities and connects back to student learning (Marzano, 2003).

The PGP should address realistic, focused and measurable professional goals. As district staff collaborate to identify explicit goals, these goals become the focus of professional growth activities.

Reflective practices and professional growth planning are cyclical in design. The educator:

- 1. Uses the standards to reflect on his or her current growth needs based on the results of the self-reflection process and identifies an area, or areas, for focus
- 2. Collaborates with the supervisor to develop a PGP and identify action steps
- 3. Implements the plan
- 4. Regularly reflects on the progress and impact of the plan on professional practice
- 5. Shows evidence of modification of the plan as appropriate
- 6. Continues implementation and reflection

The district employee should meet with the primary evaluator to develop and receive feedback on the PGP.

Professional growth plans should address the following questions:

- 1. What do I want to change about my practice that will effectively impact my job performance?
- 2. How can I develop a plan of action to address my professional learning?
- 3. How will I know if I accomplished my objective?

Provide evidence on these question responses to validate why this was the selected focus. Self-Reflections and Professional Growth Plans will be documented using district determined forms or methods.

<u>District Administrator, Directors, & Certified Coordinator</u> <u>Summative Evaluation</u> Components

A summative conference shall occur annually at the end of the evaluation cycle to determine an overall summative rating for district administrators and certified coordinators. The primary evaluator is assigned by the Superintendent within 30 days after the start of school. The primary evaluator is responsible for determining the Summative Performance Rating for the employee. The process will consist of a review of the evidence provided in relation to the Professional Growth Plan, job description and progression in the Professional Standards for Educational Leaders aligned with the four Performance Measures of: Planning, Environment, Instruction, and Professionalism to assign an overall summative rating. The evaluator will use the *Criteria for Determining a Summative Rating* (Table 3) to determine the overall Summative Rating. Summative ratings for District Administrators, Directors, and Certified Coordinators shall be completed no later than June 15th. The employee must be provided either electronic or hardcopy access to all evaluation documents. A hardcopy must be signed and dated by both parties and provided to the district office for the individual's personnel file. Employees shall have an opportunity to provide a written response to all evaluations which shall be placement in the employee's personnel file.
