

It is understood that the current Marion County High School Addition and Renovation (HBC 2109-005079) will be required to satisfy the following conditions in order to qualify for a final Certificate of Occupancy:

1. A fire barrier shall be created and maintained between the west classroom addition and the main building and the existing Gymnasium and the main building, including the appropriate protection of openings and penetrations.
2. The entire building shall be protected by an automatic sprinkler system.
3. The entire building shall be equipped with an alarm system that incorporates an emergency voice/alarm communication system and includes proper system monitoring.

Additionally, it is understood that any potential future additions to this building following the current project will be required to be constructed in compliance with the applicable building codes, including appropriate separations and construction of appropriate fire walls subdividing the existing building into complying building areas.
