Background/Rationale: In early 2022, FCPS issued a Request for Proposal for reviews of four areas of technology and data as follows: Use of Technology Systems for the District Administration; Effective Use of Data; Technology Support Provided to Schools by the District; and Effective Use of Technology in the Classroom. Hanover Research provided a response to the RFP that recommended the district undertake no more than two areas in a given year due to the amount of resources needed to support the review. Staff recommended the first two areas be Use of Technology Systems for District Administration and Effective Use of Data. We propose to undertake reviews in the other two areas, Technology Support Provided to Schools by the District and Effective Use of Technology in the Classroom, in the attached contract.
