This contract is made and entered into by and between Louisville Gas and Electric Company ("Company") and the customer ("Customer") identified above. Company agrees to install appropriate electric charging equipment and to provide routine maintenance for the electric vehicle charging station(s) ("Station") described below for Customer at the location designated above. If the Station is installed and maintained under Rate EVSE(R), the electricity the Station uses will be billed pursuant to the same rate schedule under which the Company bills the Customer for electricity delivered to the point of delivery and will be reflected in the total amount of electricity delivered to that point. If the Station is installed and maintained under Rate EVSE, then the electricity the Station uses is included in the monthly fee set forth in Rate EVSE. Customer agrees to receive, accept and operate Station and to pay for all fees and charges related to the Station and electric service provided to it in accordance with Company's rates, rules and regulations, as from time to time approved by and on file with the Public Service Commission of Kentucky. The term of this contract shall be for a period of five (5) years beginning on the installation date of the Station. At the end of this period, this contract shall continue in effect until terminated by either party by giving thirty (30) days prior written notice.

EV Charging Station(s)							
Rate Code (EVSE or EVSE-R)	Station Mount (Wall or Bollard)	Station Type (Single or Dual)	Monthly Rate Each	Charger Type (Network or Non Network)	Qty	Monthly Rate Total	One-Time Installation Cost
EVSE-R	Bollard	Dual	\$ 174.37	Network	1	\$ 174.37	
							\$ 16,195.00
Total Cost of Stations						\$ 174.37	\$ 16,195.00
						Per Month	One Time Cost

Customer's monthly bill will reflect the monthly tariff rate adjusted by the PSC approved credits or surcharges.

Prior to installation of the Stations, customer shall make ready all necessary electric connections, including conduit and conductor. Company will ensure the following scope of work is completed:

- Location 2
- 1) Provide a private utility locate before trenching.
 - 2) Furnish and install (2) new 40-amp 2-pole breakers in existing panel.
 - 3) Furnish and install 1" EMT conduit, hangers, boxes, hardware and wire from existing panel through basement to exterior wall.
 - 4) Make wall penetrations as necessary in basement.
 - 5) Core drill exterior wall for conduit penetration.
 - 6) Trench from building to proposed location of new chargers.
 - 7) Furnish and install new 1" PVC conduit and wire from exterior wall to location of proposed new disconnect switches.
 - 8) Furnish and install Uni-strut rack for new disconnect switches.
 - 9) Furnish and install (2) new 250-volt 60-amp 2-pole NEMA 3R disconnect switches and (4) new 40-amp fuses.
 - 10) Furnish and install new 1" PVC conduit and wire from new disconnects to proposed location of new charger.
 - 11) Saw cut sidewalk for under-ground conduit installation.
 - 12) Pour and finish saw cut section of sidewalk and extend as necessary for accessibility.

Confidential

- 13) Furnish and install (1) new concrete base within sidewalk for charger.
 14) Furnish and install (2) new 4" concrete filled steel bollards with plastic sleeves.
 15) Install (1) LG&E supplied ChargePoint pedestal mount dual charger (power from customer side).
 16) Perform validation for new charger.

If Customer cancels this contract prior to five (5) years from the date service is first provided to the Station, payment for the months remaining under the contract will be billed to Customer and will be due and payable on following month's bill. If Customer fails to make any payment due hereunder, Company may proceed with the collection thereof; and in addition, Company may remove the Station from Customer's premises. If another party, acceptable to the Company, enters a Contract with the Company agreeing to pay for service to and for the Station for the remainder of the term of this Contract, then Customer shall be relieved of future responsibility.

Customer hereby grants Company permission and customer shall provide a permit if required by law, to enter Customer's property for the purpose of installing, repairing, maintaining, replacing, or removing the station and all associated equipment and performing all associated work. Customer understands and agrees that the Station installed under this Contract remains the property of Company. Customer agrees not to attach any object or to allow any object to be attached to the Station other than a licensed electric vehicle. Customer agrees to exercise proper care to protect the Station. Company may decline to install or remove Station and to provide service thereto in locations wherein Company's judgment, such equipment will be subject to unusual hazards or risk of damage. Customer agrees to be responsible for the cost of station replacement or repairs where such replacement or repairs are caused from willful damage, vandalism, or causes other than normal wear and tear.

Customer authorizes the Charging Station Provider to release directly to the Company any and all usage data from each station. Usage data does not include the identity of an individual station user.

Customer expressly acknowledges that it may not resell the energy provided by Company.

CUSTOMER ACKNOWLEDGES THAT COMPANY HAS NO PRACTICAL WAY OF DETERMINING THE LOCATION OF UNDERGROUND LINES AND FACILITIES OWNED BY THE CUSTOMER (E.G., WATER AND SEWER LINES, FIRE ALARM LINES, SPRINKLER SYSTEM LINES, ETC.). UNLESS CUSTOMER ACCURATELY COMMUNICATES TO THE COMPANY IN WRITING OR PHYSICALLY MARKS THE LOCATION OF SUCH LINES, CUSTOMER HEREBY RELEASES AND INDEMNIFIES THE COMPANY FROM AND AGAINST ANY DAMAGES OF ANY NATURE WHATSOEVER WHICH ARISE IN CONNECTION WITH THE COMPANY MAKING CONTACT WITH OR DAMAGING SUCH LINES
