Consent Agenda Item (Action Item): Consider / Approve purchasing a passenger van to transport students to assist with meeting post-secondary transition needs for students to become transition ready. (Job Shadowing, On the Job Training, Career Exploration, and Post-Secondary Institution activities that coincide with the CWTP- Community Work Transition Program implemented by Floyd County Schools Employment Specialists.

Applicable State or Regulations: General Powers and Duties of the Board (01.11)

Fiscal/Budgetary Impact: ARP IDEA would cover the purchase for a passenger van with third row seating. The reduced book value at the end of the current 12-month lease through Enterprise is 24,153.15.

History/Background: This van will be utilized by students and staff to meet transition readiness requirements. Students participating in the CWTP- Community Work Transition Program from each high school will need to be transported individually and or in small groups with para educator support as needed for the Employment Specialists to seek reimbursement for the transition activities occurring through the CWTP Program / Vocational Rehabilitation. Provide individual and small group transportation of students with disabilities to work on post-secondary transition needs. This will not be classified as a school bus and is designed to carry 9 passengers or less. The van gives students more access to lost community-based instruction, job exploration and supported employment opportunities. This van would meet the special transportation needs as described in IEP's of students with disabilities. The district will maintain the van on the IDEA inventory and the van will only be used for special education activities such as CBI or other events when needed to transport a special education student to enable him/her to participate. The van will not be used to transport students without disabilities.

Recommended Action: To approve purchase of the 2022 Chrysler Pacifica, a passenger van with third row seating that is currently being leased from Enterprise Fleet Management.
