Schools and School Policy

Member School Item BGISD Report

On April 13, I participated in a google meet with Mr. Kyle McGraw (Principal), Mr. Ken May (Director of Personnel) and Mr. Calvin Head (Athletic Director) to review the status of their athletic department handbook. During the course of the meeting, we reviewed the content of the handbook and I provided feedback on revisions and additions. Following that meeting, Mr. May reported the following update after our discussion:

"A couple of the major changes since we talked include the following:

NFHS Level 1 courses requirement

Social Media Guidance for Coaches

The inclusion of additional relevant KHSAA bylaws in appropriate sections"

The handbook can be viewed online at

General Commentary

Staff conducted its 3rd training session at the KHSAA Offices on April 24 for four coaches that had not attended either of the previous two sessions in Bowling Green. Following the training on April 24, only one active coach did not attend any of the sessions. In a follow-up email, Mr. May stated:

"Dr. Scott Barbee who was a volunteer girls soccer coach did not complete the training because he is a dentist and his schedule did not allow it. Dr. Barbee will not be allowed to coach until he completes the required training."

In addition to Mr. Barbee, there were five coaches on staff during the 2022-23 season that did not attend the training but resigned from their positions:

Leah Blankenship - cheer

Esteban Casana - soccer

Tom Hunley - tennis

Tyler Siddens - football

Kylee Wall - volleyball
