

**KBE Special Committee- Learning Experiences**  
**May 24, 2023, 10:00 a.m. ET**  
**Teams Teleconference Meeting**  
**Kentucky Department of Education**  
**Meeting Minutes**

- **Call to Order**

Sarah Snipes introduced herself and welcomed everyone to the KBE Special Committee on Learning Experiences Meeting, Session Two. The meeting was called to order at 10:00am. Sarah Snipes started by going over the agenda which included presentations on/by the Office of Teaching and Learning, KyMTSS, Deeper Learning Dozen, and High-Quality Instructional Resources to support curriculum development. She stated each group would present individually and that they would begin directly after roll call.

- **Members Present**

Attendance included: Sasha Reinhardt, Chrystal Rowland, Kris Jarboe, Sasha McIntosh, Elizabeth Hack, JoAnn Adams, Sarah Snipes, Deborah Winkler, Fox DeMoisey, Melody Cooper, and Patrice McCreary. Guests present: Micki Ray, Thomas Woods-Tucker, and Meredith Brewer.

- **Discussion**

Sarah Snipes began by opening the floor to the Office of Teaching and Learning group who would present on Vibrant Student Learning Experiences. This presentation went over in depth how High-Quality Instructional Resources (HQIR's) enhances the curriculum development process and reduces the time a teacher spends creating or selecting assignments. It was explained how the student experience is affected when teachers do not have access to HQIR's. Many figures and data were shown to support how HQIR's elevate the student experience and success and how this benefits both teachers and students overall. The floor was then turned over to the Kentucky Multi-Tiered System of Support (KyMTSS) group presentation. It was stated that this is KDE's strategic plan and the definition of KyMTSS is explained more in depth. A timeline journey of how this system evolved and came to be over time from 1997 to present day is shown and explained. The KyMTSS essential elements graphic was presented on the screen and all components that go into that. Time was cut a bit short, but all attending would be provided access to this presentation to review at a later time. The meeting was then switched over to a presentation on the Deeper Learning Dozen (DLD). This presentation provided a working definition of what deeper learning is. In addition to this, it was stated that KDE's North Star is United We Learn as this ties into DLD work and was discussed by the group. A slide with links to helpful tools/resource videos based on deeper learning was provided to the group as time constraints would not allow each link to be selected during the presentation. Sarah Snipes wrapped up the meeting at the close of the DLD presentation and thanked everyone for being in attendance.

- **Next Steps**

The group was provided links to each presentation so they can further explore the content and resources provided within each on their own time and could further discuss at the next KBE meeting on May 30 2:00-3:30pm ET.

- **Adjournment**

Sarah Snipes thanked everyone for their time and attendance and stated she would reach out to everyone with the presentations and resources for further discussion. The meeting adjourned at 11:00am.
