

Board Report
Jim Seward,
District Technology Coordinator
June 2023

Summer School

After collecting devices that were used for the school year, we were able to get the devices cleaned, sanitized and re-imaged for the summer school program.

One-to-One Devices

We plan to have a laptop in the hands of students in grades 3-12 (third grade was iPads this past school year) this year. Students in K-2 will still have an iPad assigned to them.

New Summer Staff

I am thrilled that we have two students working with the Tech Team this summer. Skyler Benitez (incoming senior) and Maddie Jones (just graduated) will be helping our team get ready for the next school year!
