3. I am very excited to introduce my replacement. She will do a wonderful job taking care of our students and growing the programs. She is very smart and innovative. Looking forward to seeing what comes next.
4. I am working hard to complete my Summer Reports that are due in June and July.
5. I will be requesting a Shortened School Day from KDE for one of our special needs students as he transitions into the school setting. It was determined at our ARC meeting that he will attend school from 12:00pm – 3:00pm. We will gradually increase his time.
