THANK YOU!

The students who participate in the Early College Program wish to thank Superintendent Borchers & The Ludlow Board of Education for their support. They are truly appreciative of their Early College experience.

Thank you to everyone who helped me get into Gateway and succeed along the way. The classes I have completed have set me up for far more opportunities than I could have had alone; opportunities that would have either been a lot farther into my future, or not there at all. I'm determined to use this experience to change the generational cycles within my family.

Thank you so much! My family is not the most "financially stable" so getting to experience college and earn so many credits has really helped us. I truly have gotten a lot of knowledge out of the program. I am now prepared to graduate and go to college in the fall.

I am really grateful we have this program and that it's free to all students. It has helped me not only get ahead in college, but also get a better feel for how it's really going to be. This program helped me figure out that I wanted to be a clinical psychologist from the psychology class I took last year. I am really glad to be given this great opportunity.

I liked the fact that I was able to get some college credits out of the way. It is very helpful considering that I will now go into freshman year of college with A LOT of experience. This will help me be better prepared for my future.

I would like to thank all of you for allowing me to go off campus and get college credits. It really was a game changer for me, being able to develop as a student over these past two years. You have always made sure I did well in my classes, even allowing us to come to the board office to study. I am extremely grateful to have you guys right by my side! Gateway has allowed me to build friendships and learn life skills and I can't thank you enough for everything you've done to make this program the best it could be for the students!
