The Code of Student Conduct is published for good communication and to establish the framework to provide an environment for excellence in learning. It is based on basic principles contained in the Policies and Procedures of the Gallatin County Board of Education. The complete Policy Manual is available at the Central Office, each school, and online at www.gallatin.kyschools.us.

This booklet does not contain a comprehensive listing of ALL student misconduct and district personnel disciplinary responses. The Gallatin County Board of Education, each school's administration, and its SBDM reserve the right to administer other appropriate corrective measures for offenses listed and others that may occur. Variations from responses listed in the discipline code will be based on the severity of the incident and the number of times a student has had disciplinary referrals.

Attendance Policy:

All students are expected to attend school on a regular basis and to be on time for classes in order to benefit from the instructional program provided. We want our students to develop desirable traits of punctuality, self-discipline, and responsibility. Employers hire and keep people that have these traits and the right attitude towards work.

Truancy Defined

As Amended KRS 159.150 to read:

Any public school student who has not reached his or her twenty-first birthday, who has been absent from school without a valid excuse for three (3) or more days or tardy without a valid excuse on three (3) or more days as truant.

A habitual truant is any student who has been reported as truant two (2) or more times.

For the purpose of this policy, the number of absences shall be based on the cumulative number of days of unexcused absences, rather than the number of absence incidents. The numbers of tardies shall be based on the number of tardy incidents.

A public school student who has attained the age of eighteen (18), but has not reached his or her twenty-first (21) birthday, is accountable if the student fails to comply with school truancy laws. The parent, guardian, or custodian of a public school student who has not reached his or her eighteenth (18) birthday is accountable if the student fails to comply with school truancy laws. The court-appointed guardian of a public school student, who has not reached his or her twenty-first birthday, is accountable if the student fails to comply with the school truancy laws.

The Gallatin County Schools Director of Pupil Personnel (DPP) is required to inform students between the ages of 18 and 21, parents, guardians, and custodians that they are subject to the truancy laws.

Personal contact with a student's parents/guardians will be established by the DPP/designee upon notification in writing that the student has six (6) unexcused absences or tardies. At such time "FINAL NOTICE" as per KRS 159.180 will be issued personally or by certified mail notifying the parent/guardian of said student's habitual truancy.

Court referrals will be made for any unexcused absence after final notice is issued. Legal action shall be initiated in the Gallatin County District Court in cases of habitual truancy of pupils.

Legal action shall be sought against parents of habitually truant students younger than twelve (12) years of age under the auspices of the County Attorney's office. Charges will be filed directly against habitually truant students twelve (12) to eighteen (18) years of age initially through the offices of the Court Designated Worker. Students eighteen years of age (18) or older will be charged by the County Attorney.

Definitions/Clarifications of Gallatin County Attendance Policy

The EHO must be submitted to the principal in writing prior to the event or trip. This type of absence cannot occur during any of the school's district-wide assessments, unless there are extenuating circumstances that are approved by the Director of Pupil Personnel. If you have students in more than one school, a request must be made to each school principal. Principals have identical guidelines that are to be followed for EHO.

No Pass/No Drive

The No Pass/No Drive Law (KRS 159.051) is a statute that results in the denial or revocation of a student's driver's license for academic deficiency, or dropping out of school as a result of excessive or unexcused absences. Academic deficiency is defined as a student who does not have passing grades in at least four (4) courses, or the equivalent of four courses, in the preceding semester. A student is deemed to have dropped out of school when he/she has nine (9) or more unexcused absences in the preceding semester.

Early Dismissal from School

No student shall be dismissed early from school without permission from the Principal. Any student who leaves the school grounds without permission from the Principal shall be subject to appropriate disciplinary action.

Students shall be dismissed early from school only if they are signed out by the custodial parent/guardian or if written authorization from the custodial parent/guardian is on file in the principal's office. The authorization form completed by the custodial parent/guardian shall list those people who may pick up the student.

In the event that it is not possible for the Principal to obtain prior authorization to dismiss a child from school into the custody of someone other than the custodial parent/guardian, and the Principal determines the situation to be an emergency, the person signing the student out must provide valid identification and sign the student dismissal form.

Emancipated students may sign their own dismissal.

A student may be released to a person with lawful authority to take custody of the student, e.g., a police officer with a warrant. In such cases, the student's parent/guardian shall be notified at the earliest opportunity.

School's Attendance Requirements

Regular school attendance is essential for students to earn the full value of his or her education. Daily attendance allows students the benefit of: teacher-led instruction, peer discussion, building each day's learning on the previous day's learning, participating in school activities, and to grow as individuals. The administration, faculty, and staff of the Gallatin County Schools expect all students and staff to be present every day! We want our students to develop desirable traits of punctuality, self-discipline, and responsibility. Students who have good attendance usually excel in school, have higher grades, and enjoy school.

Bullying/Hazing

Bullying includes hazing; menacing; taunting; intimidating; verbal or physical abuse of others; the use of lewd, profane or vulgar language; verbal or physical abuse of others; or other threatening behavior toward students, staff members, or visitors in person or through acts of cyberbullying. Students who believe they have been a victim of bullying or who have observed other students being bullied shall, as soon as reasonably practicable, report it. Bullying is defined as "any unwanted verbal, physical, or social behavior among students that involves a real or perceived power imbalance and is repeated." (S.B. 228)

Bullying refers to any intentional act by a student or groups of students directed against another student to ridicule, humiliate, or intimidate the other student while on school grounds, or at a school-sponsored activity, which are repeated against the same student over time. Bullying involves repeated negative behavior, carried out over time with a purpose to harm another person physically or mentally, or to benefit oneself through behavior which causes such harm to the other person. Bullying involves taking advantage of either a real or perceived imbalance of power. Bullying may involve an attempt to cause fear. Examples of behaviors that fall into this category include, but are not limited to inappropriate and unwanted physical contact (including hitting, kicking, shoving, and pushing); intimidating and threatening comments (oral, written, or electronic); name calling or put-downs (selecting or using a nickname which is intended to embarrass or humiliate); manipulation or coercion of another student to do something he/she does not want to do; setting someone up to be bullied or encouraging a student to engage in bullying; sharing or starting rumors or gossip; hurtful teasing or making fun of someone; hiding or destroying someone's belongings; or shunning or excluding someone from a group or activity in order to embarrass or humiliate the person.

The Kentucky Center for School Safety (<https://kycss.org/cyberbullying.php>) addresses Cyber Bullying: **Cyberbullying** involves the use of information and technology such as e-mail, cell phone, text messages, instant messaging, the publishing of defamatory personal web sites, blogs, social media websites, online games, and online personal polling websites that are used to support conscious, willful, deliberate, repeated, and hostile behavior by one or more people with the intent to harm others. On-line harassment or threatening is **Cyberbullying**.

In order to effectively participate in the democratic process as adults, students must learn to respect the rights of others and to interact with them in a civil manner. Therefore, students are required to speak and behave in a civil manner toward students, staff, and visitors to the schools.

Actions Not Tolerated

- The use of lewd, profane or vulgar language is prohibited.
- In addition, students shall not engage in behaviors such as hazing, bullying, menacing, taunting, intimidating, verbal or physical abuse of others, or other threatening behavior.
- This policy extends to any/all student language or behavior including, but not limited to, the use of electronic or online methods (Cyber Bullying).
- Such behavior is disruptive of the educational process and interferes with the ability of other students to take advantage of the educational opportunities offered.

These provisions shall not be interpreted to prohibit civil exchange of opinions or debate protected under the state or federal constitutions where the opinion expressed does not otherwise materially or substantially disrupt the education process or intrude upon the rights of others.

Students who violate this policy shall be subject to appropriate disciplinary action.

Terroristic Threatening (KRS Chapter 508)

Students should realize that terroristic threatening is punishable with up to 12 months in jail. Effective June 2001, terroristic threatening is a crime in the state of Kentucky (KRS 508.080). A person is guilty of

terroristic threatening when: **(a)** He or she threatens to commit any crime likely to result in death or serious physical injury to another person or likely to result in substantial property damage to another person; or **(b)** He or she intentionally makes false statements for the purpose of causing evacuation of a building, place of assembly, or facility of public transportation. Such offenses may lead to expulsion without educational services.

Weapons

Carrying, bringing, using, or possessing any dangerous or deadly weapon in any school building, on school grounds, in any school vehicle or at any school-sponsored activity is prohibited by students, staff members, or visitors to the school. Such weapons include, but are not limited to: knives, any pistol, revolver, rifle, shotgun, air gun or spring gun, slingshot, bludgeon, booby trap device, brass knuckles or artificial knuckles of any kind.

It is the policy of the Gallatin County School System to report any student who is determined to have brought a weapon or firearm to a school or school grounds under the jurisdiction of this system to the criminal justice or juvenile delinquency system. To comply with existing requirements of the Individuals with Disabilities Education Act (IDEA) regarding discipline of students with disabilities, our board or education will modify the expulsion requirements, on a case-by-case basis, for IDEA-eligible students. IDEA-eligible students may be expelled for behavior unrelated to their disabilities, as long as the procedural safeguards required by IDEA and KRS 158.150 are followed.

Non-IDEA eligible students will also have their expulsion requirements modified on a case-by-case basis by the board of education.

The superintendent shall post the following notice in prominent locations in the schools, including, but not limited to, sports arenas, gymnasiums, stadiums, and cafeterias. The notice shall be at least six (6) inches high and fourteen (14) inches wide and shall state:

Employees who receive information from a student or other person regarding conduct required to be reported shall report the conduct in the same manner as stated above.

In the enforcement of this policy, principals may authorize, if they have reasonable suspicion, searches in compliance with board policies 09.436

Violation of this policy by staff members shall constitute reason for disciplinary action, including possible termination.

Assault

Any pupil who assaults another pupil shall be subject to appropriate disciplinary action, including suspension or expulsion.

Any pupil who assaults or verbally abuses a teacher or other school personnel shall be subject to appropriate disciplinary action and/or legal action.

Any District employee assigned to work directly with, or who comes in contact with, a student with a documented history of weapons violation and/or physical abuse of a school employee or of carrying a concealed weapon on school property or at a school function, shall be notified in writing of the student's history by the Principal or designee, guidance counselor or other school official who has knowledge of the student's behavior prior to the assignment of contract.

Assault on School Personnel

Before a student with a documented history of physical abuse of a school employee or of carrying a concealed weapon on school property or at a school function is assigned to work directly with or comes in contact with any district employee, that person shall be notified in writing of the student's history by the Principal. The notice shall describe the nature of the student's behavior.

Any assault or verbal abuse by a pupil on a teacher or other school personnel is prohibited. Violation of this policy shall be grounds for disciplinary action.

Disrupting the Educational Process

Behavior that is disruptive to the educational process shall not be tolerated. For the purpose of this section, behavior that disrupts the educational process, shall include, but not be limited to:

1. Conduct which threatens the health, safety, or welfare of others;
2. Conduct which may potentially damage property;

4. Conduct that interferes with or hinders the orderly administration of the school and school-related activities.

Violation of this policy shall be grounds for disciplinary action. Students with disabilities who exhibit inappropriate conduct shall be managed in accordance with their Individual Education Plan (IEP) and the legal obligations and standards adopted by the Board.

Due Process

The US Supreme Court has held that a student may not be deprived of the opportunity to a public education without good cause in which procedural due process is observed. Due process requires that all students:

1. The pupil shall be given oral or written notice of the charges against him/her;
2. That they receive an explanation of the evidence against him/her;
3. The pupil shall be given an opportunity to present his/her own version of facts concerning the charge(s).

In cases of severe misconduct, the Principal may set up an administrative hearing with the student. When drug or alcohol violations have occurred, the Principal may request the convening of the Disciplinary Review Committee. In cases that involve students with disabilities, the procedures mandated by federal and state law shall be followed.

Suspensions (KRS 158.150)

The Superintendent, Principal, or Assistant Principal may suspend a pupil up to a maximum of ten (10) days per incident.

A pupil shall not be suspended until due process procedures have been provided as described in KRS 158.150 (09.431), unless immediate suspension is essential to protect persons or property or to avoid disruption of the ongoing academic process. In such cases, the due process procedures outlined above shall follow suspension as soon as possible but no later than three (3) schools days after suspension.

The administrator will contact parents, when possible, before the suspension. When a student is suspended, the administrator shall report such action in writing immediately to the superintendent/designee and parent/guardian of the student. Written notice shall be mailed to the parent/guardian and a copy shall be given to the student.

When a student is suspended, they are not allowed to attend school for an assigned number of days. Suspended students are ineligible to attend or participate in any extracurricular activities – this includes practices, meetings, games, competitions, or competitions of any form. Students who are suspended from school are not allowed on school property (day or night) during the suspension. Students who are caught, observed, or reported by school officials to be on school property during a suspension will receive double suspension time. Students who are suspended from school are not allowed to participate in or attend any school functions or contests and are not allowed on school property for the entire duration of their suspension (this includes weekends).

Expulsions

Expulsion is the most serious penalty that a board of education can impose and should only be used as a last resort. If expulsion is deemed necessary, the principal shall recommend expulsion to the superintendent. At that time parents will be notified of a scheduled due process hearing to be held no earlier than five days from the day the notice is received or not later than the next regular school board meeting (09.434).

Search and Seizure

No pupil's clothing shall be searched by authorized school personnel unless there are reasonable grounds to believe the search will reveal evidence that the pupil has violated or is violating either a school rule, a Board policy, or the law. Search of a pupil's person shall be conducted only with the express authority of the Principal. A witness will be present if possible.

As a precautionary measure against the spread of COVID-19, school lockers will not be available for student use during the 2020-2021 school year. This decision has been made for all schools at the district level due to school buildings reopening under KDE's "Initial Guidance for Schools and Districts" guidelines. Therefore, school officials reserve the right to check backpacks/book bags to help insure a safe school environment.

Searches of a pupil's person or his/her personal effects shall only be conducted by the Principal or a certified person directly responsible for the conduct of the pupil at the school where the student attends.

When a pat-down search of pupil's person is conducted, the person conducting the search shall be the same sex as the pupil; or a witness of the same sex as the pupil shall be present during the search. No search of a pupil shall be conducted in the presence of other students. No strip searches of students

shall be permitted. Students who fail to cooperate with school authorities when requested shall be subject to disciplinary action.

School property, such as lockers and desks, are jointly held by the school and the pupil. School authorities have the right to conduct a general inspection of all such property on a regular basis. During these inspections, items that are school property, such as overdue library books, may be collected. Students should not expect privacy of items left in such locations. A single desk or locker may be searched if reasonable grounds exist to believe that evidence of a violation of the law or a school rule is contained therein.

Illegal items (e.g. weapons, drugs, etc.) or other possessions reasonably determined by proper school authorities to be a threat to the pupil's safety or to others' safety and security may be seized by school officials.

Items which may be used to disrupt or interfere with the educational process may be temporarily removed from the pupil's possession by a staff member. Such items may be returned to the pupil by the staff member or through the Principal's office.

All items which have been seized shall be turned over to the proper authorities or returned to the true owner.

School authorities shall have the authority to conduct routine patrols of student parking lots and to inspect the exteriors of student vehicles parked on school property.

Subject to the following conditions, the Principal may authorize the use of trained dogs to locate controlled substances on school grounds:

1. The dogs shall be certified as never having been trained as attack dogs.
2. The Principal or the Principal's designee shall be present.
3. Searches involving dogs shall be conducted only when students are in classrooms; no student shall be in the vicinity of lockers being searched.

Police Officers in the School (School Resource Officer)

School officials shall cooperate with law enforcement agencies in cases involving students (i.e., serving of subpoenas, juvenile petitions or warrants, or taking students into custody). As soon as possible, officials shall endeavor to notify the parents of any student who is arrested.

In the interest of the student's welfare, the following requirements shall be followed when police officers ask to question or remove a student from the school whom they suspect of committing a crime off school property:

In the interest of the student's welfare, the following requirements shall be followed when police officers ask to question or remove a student from school whom they suspect of committing a crime off school property:

1. Parents/guardians of minor students shall be notified by school officials as soon as possible prior to interrogation or removal from school.
2. If the student is an alleged victim of abuse or neglect by a parent, school officials shall follow the directions provided by the investigating officer or Cabinet for Families and Children representative as to whether to contact a parent.
3. If the parent(s) comes to the school or consents to permit the officer(s) to interview the student, a private place for the interview shall be provided.

4. If the parent(s) cannot come to the school and do not consent to the interview, the police should be advised to either bring a warrant, court order or juvenile petition, or arrange to interview the student off the school grounds.

Except in cases of emergencies involving threats to health and safety as determined by the Superintendent, when the District calls law enforcement officials to question students concerning crimes committed on school property, the Principal shall make an effort to notify their parents.

Grievance Procedures

Parents having concerns/grievances are encouraged to contact school personnel following the outlined steps. However, under no circumstances are classes to be interrupted.

- Call the school office for an appointment to discuss the concern with the teacher
- Call the school office for an appointment to discuss the concern with the principal/assistant principal and classroom teacher (if appropriate)
- Call the central office for an appointment to discuss the concern with the superintendent or appropriate staff

Student Grievance Procedures

This procedure is for the purpose of providing a student/parent an opportunity to report a grievance or complaint. It is recognized that there are times when complaints and questions arise as the result of actions by school employees. Constructive criticism on such matters is welcome in the following manner:

- If the complaint is related to the classroom, the student/parent will contact the Principal or Counselor of the school to arrange a conference with the classroom teacher, as soon as possible, to discuss the problem.
- If this conference does not resolve the situation, the teacher and parent may arrange for a conference with the Principal with a minimum amount of delay.
- If the complaint is not related to the classroom, the student/parent will contact the Principal directly.
- If the Principal or Counselor is an alleged party in the complaint, the complaint shall be directed to the Superintendent.
- The staff member to whom the complaint was directed shall make prompt investigation of the allegations and a written response to the student/parent within five (5) working days after receiving the complaint. A copy of the complaint and response shall be filed with the Superintendent.
- If the student/parent is not satisfied with the resolution developed under the above steps, or if the solution is not received in the prescribed five (5) days, s/he may appeal in writing to the Superintendent, who shall investigate the allegations within five (5) working days from the date the appeal was received.

A written response will be made by the Superintendent within ten (10) working days from the date of the appeal and presented to the student/parent with a copy to be filed in the Superintendent's office. If the resolution of the complaint developed by the Superintendent is not satisfactory, and the complaint concerns the methods in which a Board policy was administered, the fairness of a Board policy, or the violation of a policy by personnel, the student/parent may appeal in writing to the Board for a hearing at the next regularly scheduled meeting. The Board does not have the authority to discipline personnel. This authority lies with the Superintendent.

The resolution reached by the Board shall be final and shall be presented to the student/parent in writing within three (3) working days from the date of the Board's decision with a copy filed in the Superintendent's office.

The school council has authority to adopt policies, within existing Board policies, regarding the management of students and student conduct, curriculum, extra-curricular activities, and the assignment of staff and students. The school council does not have the authority to discipline personnel. This authority lies with the Superintendent.

If the complaint concerns the fairness of a school council policy, the parent may present evidence to the school council regarding why the parent feels that the policy is unfair.

If the above procedures do not solve the situation and the complaint concerns the method in which a board policy was administered or the violation of a policy by personnel, the student/parent may appeal in writing to the Superintendent who shall investigate the allegations within five (5) working days from the date the appeal was received.

A written response will be made by the Superintendent within ten (10) working days from the date of the appeal and presented to the student/parent with a copy filed in the Superintendent's office. If the resolution of the complaint developed by the Council/Superintendent is not satisfactory, the student/parent may appeal in writing to the Board for a hearing at the next regularly scheduled meeting. The resolution of the complaint shall be made by the Board within three (3) working days of the next regularly scheduled meeting following the hearing.

The resolution reached by the Board shall be final and shall be presented to the student/parent in writing within three (3) working days from the date of the Board's decision with a copy filed in the Superintendent's office.

No Pass/No Drive

The Right to Confidentiality of Access to Student Records

In accordance with the Family Education Rights and Privacy Act, written policies and procedures have been developed which describe the Gallatin County School District's requirements regarding confidentiality of personally identifiable information. Stated in this notice is a summary of your rights under the Act. These rights are passed on to the student at age eighteen (18). For the purpose of this notice, the student 18 years or older, and the students who are married, will be referred to as the "emancipated" or "eligible" student. Parents, guardians, and eligible students may review and inspect all

education records relating to that student by making a request to the Principal of the school where that student attends.

The Gallatin County Public Schools (GCPS) will presume that the parent has the authority to review and inspect records relating to their children unless the district has been advised in writing that the parent does not have the legal authority under applicable state law governing such matters as guardianship, separation, and divorce.

Personally identifiable information is not released to another party unless there is written authorization from the parent or eligible student, or there is a “Legitimate Educational Interest” as defined in the policies and procedures for confidentiality. A current list of employees’ names and positions who have access to personally identifiable information is on file in each school.

The GCPS has described in its policies and procedures the conditions under which personally identifiable information is released to another person without written parental consent.

“Directory Information” is information contained in an educational record which would not generally be considered harmful or an invasion of privacy if disclosed. This information may be released to the news media, athletic organizations, scholarship or college entrance committees, or official organizations whose need for data is connected with student help activities. “Directory Information” includes, but is not limited to the student’s name, address, telephone listing, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, and the most recent previous educational agency or institution attended. The parent, guardian, or eligible student currently enrolled may request all or part of the directory information be withheld. The request must be in writing to the Principal of your child’s school, within 30 calendar days after this notification has been distributed. The written request must specifically state what information may not be classified as directory information. In accordance with federal regulations concerning the release or transfer of educational records, it is the policy of this school district to forward education records on request to a school in which a student seeks or intends to enroll. Parents may obtain upon request a copy of the records transferred.

The Gallatin County Schools keeps child and youth records in a secure computer system and in locked files in each school and central office.

Any parent or guardian of a student, or any eligible student, may challenge the content or accuracy of any material or entries in the student’s educational records on the grounds that it is inaccurate, misleading, or otherwise in violation of the privacy or other rights of the student. Requests to amend the records are submitted to the Principal of your child’s school.

For students who have been determined eligible for programs for children and youth with disabilities, educational records will be destroyed at the request of the parent when they are no longer needed to provide educational programs and services. The GCPS will destroy the educational records of a child or youth without a parent’s request after the records have been maintained for a minimum period of seven years and are no longer needed to provide educational programs and services. Parents are advised that data contained in the records may be later needed for Social Security purposes. The GCPS retains for an indefinite period of time, a record of the student’s name, address, telephone number, grades, attendance record, classes attended, grades completed, and year completed.

Children and youth determined eligible for special education include those children and youth with disabilities who have hearing impairments, vision impairments, emotional and behavior disorders, both deafness and blindness, health impairments, specific learning disabilities, mental disabilities, multiple disabilities, speech and language impairments, physical disabilities, autism, or traumatic brain injuries, and who because of these impairments need specifically designed instruction and related services.
