

Board Report

Jim Seward, Director of Technology

July 2023

Summer Projects

We continue to make progress on getting all devices ready for staff and students. Bellevue High School staff will be getting new laptops for next school year. GES staff will be getting new devices next summer.

Construction

We continue to support the construction project with moving technologies. We are waiting for construction to finish so that we can finish setting up the classrooms for the new school year.

Summer Work

The extremely busy time of year continues to roll on. We are working on various projects to get our district ready for the next school year!
