Re: CollegePrep, Inc (Best Fit Coaching Plan)

Handwritten signature and date: AU 7-13-23

An essential part of providing comprehensive counseling services at the high school level is providing school counselors, students, and families with tools and resources to ensure successful entry into college, but also for success through their college experience. The college admissions process has seen significant changes with increased competition. For students who are choosing to attend a postsecondary institution, recent trends in higher education have impacted the application and requirement process that will leave our BCPS students behind if we are not providing our school staff, students, and families with the most expert knowledge.

The Best Fit services are provided through CollegePrep, Inc. who works directly with our students, families, and counselors. After one year of implementing this program we have revised aspects of what our transcripts look like based on information provided that was inhibiting our students, over 400 consultations (phone and in-person) have occurred with parents and students directly and all three high schools, and monthly sessions with students in large groups, one-on-one, and small groups. This coaching plan aligns with our Board Aspiration statements of *"Assure our graduates are ready to immediately succeed in life"* and *"Collaborate with businesses, education providers, and the community to maximize student learning options"*. of The renewal costs will be \$173,250.00 and will be funded through Title IV, BEAM, and/or student learning funds.
