

Name General Counsel Chad Collins

Topic Attendance on Behalf of KHSAA

Attendance for KHSAA

**Meeting_Session
Attended**

I was asked by the Kentucky General Assembly to make a presentation as a part of the Annual Continuing Legal Education (CLE) that they host every year. The program took place on June 14. The topic of my presentation was Legal Issues in Education Based Athletics.

**Takeaways to help
Board and Staff**

I find it flattering as well as a good indication that the KHSAA is valued in Frankfort by our Senators and Representatives to be asked to take part in this program. We received many thanks and compliments for making this presentation.

General Commentary

The presentation covered a wide range of basic and generic information regarding education based athletics and did not focus on recent major issues currently being debated by the General Assembly (out of an abundance of caution). In addition to the General Assembly and LRC Staff, the program was open to the public. Over 1000 people viewed the program that day.
