Topic Attendance on Behalf of KHSAA

Attendance for KHSAA

Meeting_Session Attended NFHS Network and Holdings Company Board of Directors Meeting in June

Takeaways to help Board and Staff

This joint meeting of the two Boards that drive the NFHS Network was critical in moving forward. The success of the network is well known, and it continues to grow. It is faced with competition for the first time, but dollar for dollar comparisons show no comparison at all.

The NFHS Network has again increased its support staff as well as rolling out extremely strong technology which will do more in the mode of preventative maintenance on the field camera units to help alleviate issues that have occurred in the past.

The KHSAA is one of only two states on the governing board of the network, and well positioned to be involved in a variety of things that can help our membership.
