**Takeaways to help Board and Staff**

The sport-specific sessions provide the greatest benefit, as they give staff members insight into how other states operate and navigate the challenges we all face with our offerings. The NIL session included speakers from CA, IL and PA, who relayed how their states have been impacted at the HS level. It was interesting to hear about the varying levels that NIL has developed in these three states, as well as how they have tried to govern and manage it.

**General Commentary**

I appreciate the opportunity to represent the KHSAA at the national conference and the professional development opportunities these meetings provide.
