

Emergency Operation Plans Overview

Purpose of the plans?

- Provide guidance to students, staff & 1st responders on procedures in regards to critical incidents
- Provides critical component information such as gas, electric shut offs, water supply, HVAC, medivac GPS landing coordinates. Which is key to staff & outside personnel as they may not be familiar with these locations.
- These plans are fluid and are continually updated to cover as many type events possible. We cover roughly almost 20 types of critical incidents such as Lockdowns, Medical Events, Biohazards, Chemical, Mental Health Crisis, Fire, & many others. Newly added this year AED/Cardiac Response Plan

Review of the Plans

- At the beginning of each school year these plans are shared with staff and all 1st Responder agencies
- To make sure plans are accessible they are available in several options including electronic & paper.
- These plans are updated and reviewed annually
- EOP'S aren't subject to open records or public disclosure
