### Comments from Buddy Sampson

The Kentucky Summative Assessment (KSA) program from CERT gives students exposure to KSA content and formatting in accordance with the Kentucky Summative Assessment blueprint for grades 10 (Math and Reading) and 11 (Science, Social Studies, ELA, and Writing) up to 3 times per year.

The CERT Educator Content Management System (ECMS) (formerly QTA) allows teachers to create their own unique items (questions) with a variety of questions types (multiple-choice, short answer, etc.) and delivery options (text, audible, etc.). These items can be tagged with standards derived from state-specific or national (ACT/SAT) standards for future reference and item banking. In the future, the ECMS will morph into a user-created and (optionally) shared item bank for quick assignment creation based on standards.
