Topic School and School Policy

Schools and School Policy

Member School Item Regional Meetings of the Membership

Takeaways to help Board and Staff

Staff conducted 9 regional meetings of the membership during August, concluding on August 31. The meetings were well attended, with 365 individuals representing 270 schools in attendance.

The schools were extremely welcoming to the meetings held on their property and the meetings covered a variety of subjects. Special thanks to Board of Control members who found time to attend various meetings around the state. A special note to Mrs. Herald who attended multiple meetings, and went so far as to travel from Dry Ridge to Mayfield to engage her constituents.

General Commentary

This is a series of meetings that requires a significant time commitment from staff but is vital to the consistent communication among the membership. Many of the topics previously discussed by the Board and especially those topics that had legislative direction were able to be reviewed in great detail.

The challenge as always with these meetings is somehow containing all of the information into an abbreviated half-day meeting.
