Schools and School Policy

Member School Item New Administrators Workshop

The staff again conducted a new administrators workshop, this year at the Hilton Inn Downtown Lexington. 202 individuals from 150 schools were in attendance for this school-day long meeting which went into depth with the Bylaws, policies and provided operational assistance for the member schools.

Takeaways to help Board and Staff

As future scheduling is done, efforts will be made to again ensure that this meeting is held early enough in the year to assist the newer, and veteran ADs with transfer forms, membership obligations, bylaws and many other topics. This is also a key time for the membership to put "names to faces" of the KHSAA staff. In these days where everyone is doing most things remote, without that face to face relationship with our members, communication efficiency would dramatically reduce.

General Commentary

This meeting was formerly held at the KHSAA offices but has grown to the point that the parking around the office cannot accommodate the needs of the group. And while there are more significant costs to holding the meeting off site, the Association's relationship with the hotel has kept the costs low enough that no member school has to pay even a modest fee to attend.
