

September 14, 2023

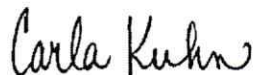

Dear Mrs. Hindle,

On August 11, 2023, a letter was written requesting that 2 of my kindergarten instructional assistants have an increase of 30 minutes to their daily contracted time to assist with the large number of car riders this year.

On August 14, Mr. Goff emailed me to approve the extra time but stated that those positions were generally paid from section 6. We discussed the possibility of district support if there was not enough money in the Section 6 budget to cover the expense. Assuming there will be an increase in that amount since my actual enrollment is higher than my projected enrollment, the SBDM can realign the budget to cover this expense.

I am now requesting for 2 additional stipends to be approved in addition to the position that was previously approved many years. This is needed for the safety of our students and not create a traffic jam on Mulberry Street.

Thank you for the consideration,

Carla Kuhn
