

OLDHAM COUNTY BOARD OF EDUCATION

CONCERN

Consider Approval of BG-1 and Architect/Engineer Selection for the Athletic Stadium and Field Improvements at Various Schools PH 2 Project.

DISCUSSION

This project will provide further improvements to each of the high school stadiums to complement the current stadium improvement project. The improvements may include new fencing, crowd control measures, demolition of unneeded structures, bleacher improvements, press box/scoreboard improvements and technology upgrades.

Licensed architects and/or engineers are assigned to all projects that construct structures, modify, renovate, or construct additions to existing buildings. The architect/engineer is responsible for the proper preparation of all plans, specifications, estimates and periodic inspections during the execution of the construction contract.

Request for proposals was advertised in the Oldham Era on August 3, 2023. Several architectural/engineering firms submitted letters of interest and qualification forms. Brent Bohannon, Director Facilities Management and Denise Schindler, Project Manager, reviewed the proposals. The consultant being recommended for the Site/Access Improvements at Various Elementary Schools PH 2 Project is RossTarrant Architects.

The BG-1 form (attached) is required in order to request the approval of the project from the Kentucky Department of Education, District Facilities Branch, Division of District Support.
