

Charlie Proctor
October Student of the Month
Talton K. Stone Middle School

Charlie Proctor is a great example of what a TKS Panther should be. He is kind and fun, and he is involved in a variety of activities. Charlie is a member of the Y-Club and Beta Club and participates on the high school swim team and golf team. He enjoys serving the community and meeting new people.

Charlie has a strong interest in Health Science and would eventually like to attend Transylvania or the University of Kentucky to pursue a possible career in Ophthalmology. His role model is Jackson Holt, because he is always positive and supportive.

Charlie loves TKS because he likes hanging out with his friends and carrying on the family legacy of being a Panther. He is looking forward to high school when he will have access to more advanced classes and have more freedom.

Charlie is a very respectful, hard-working young man. He is eager to learn. Our community will be greatly benefitted having Charlie as a local citizen if he continues on the path he's on and decides to live in our area. -Mr. Pearman

Charlie is truly a memorable student for me, even after just starting here at TK Stone in July. His humor, wit, and desire to excel at whatever he sets out to do have caught my eye. I always enjoy getting to have Charlie "Chuck" in class, or giving him a "What's up, Chuck?" in the hallway. Charlie is set to truly excel in whatever he sets out to accomplish and it has been an honor to be his teacher! - Mr. Paden

Charlie is an excellent math student and a very hard worker in my Algebra 1 class. He comes to class each day eager to learn & improve his math skills. I really appreciate his willingness to participate and problem solve in my math class. Charlie is a great representative of TK Stone and EIS. - Mr. Lutz
