### Learning Environment Grant - Scope Submission

School District	Todd County Schools
School Board Meeting	Second Monday of the month
School District Point of Contact Name	Mark Thomas
School District Point of Contact Email	mark.thomas@todd.kyschools.us
Full School Name	<u>Todd County Central High School</u>
School Address	806 South Main Street, Elkton, Kentucky, 42220
Site Contact	Chris Skipworth
Title	Energy Champion
Email	chris.skipworth@todd.kyschools.us
Primary Phone Number	(270) 265-2506
Scope Option 1 - Please describe what is included in this scope option and associated costs for each component:	<u>Lunch Covered Patio</u> - concrete paid and sunshades. Size and material will be determined by the cost of the concrete and material for the sun shade. The intent will be to spend the <u>\$10,000</u> to get as much of this done as possible
Scope Option 1 - How does this scope address learning environment improvements supported by this grant?	Currently the school doesn't have an outdoor area for eating and our students would like another option for eating than our out of date cafeteria. This area could also be used as an outdoor learning area. Our FMD department has shown interest in being able to have an area to take their students as well.
Scope Option 1 - What impact area(s) does this scope address?	Health & Wellness Creativity STEAM

Scope Option 1 - Impact area(s)

Health & Wellness

Creativity

STEAM (science, technology, engineering, arts and mathematics)

Scope Option 2 - Please describe what is included in this scope option and associated costs for each component:

Upgrades to the cafeteria. Looking at adding some technology to communicate to students current and upcoming events. Updating the appearance to make it look more modern instead of a prison. Would plan to get as much done as the \$10,000 would allow.

Scope Option 2 - How does this scope address learning environment improvements supported by this grant?

Currently one of the places our students dread to go to is our cafeteria. It is very dated and has a prison feel about it. The windows are old and are not very energy efficient and probably could be replaced to help. Our cafeteria is also used for testing and club meetings and an update to it's appearance can help raise moral in the student body.

Scope Option 2 - What impact area(s) does this scope address?

Health & Wellness  
Accessibility & Equity  
Creativity  
Energy Upgrades

Scope Option 2 - Impact area(s)

Health & Wellness

Energy Upgrades

Scope Option 3 - Please describe what is included in this scope option and associated costs for each component:

Upgrades to our Library. The carpet needs replacing and many of the windows are dated and poorly insulated. Also, some upgrades to the appearance to bring a more modern look would help student learning and moral. We planned to use the \$10,000 as efficiently as possible to update this area.

Scope Option 3 - How does this scope address learning environment improvements supported by this grant?

Testing and SPED classes are offered in the Library and updates will help students focus on their work.

Scope Option 3 - What impact area(s) does this scope address?

Health & Wellness  
Accessibility & Equity  
Creativity  
STEAM  
Energy Upgrades

Scope Option 3 - Impact area(s)

Health & Wellness

Accessibility & Equity

Creativity

Energy Upgrades

Please check the box to acknowledge that all projects must be finished by the assigned deadline of August 1, 2025.

Yes I acknowledge the deadline
