# Our Process

- We strongly believe the action steps identified, carried out with the spirit of our mission and core beliefs, are what is best for students and staff and will lead us to continued growth and success, meeting our goals, and World Class.
- We hold ourselves responsible for ongoing effective communication, implementation, support, and oversight of this action plan.
- Data and evidence allows us to celebrate growth and success and identify areas to adjust in real time.
- The CBAS model continues to allow our team to collect and review data and information comprehensively and in context about our district in real time.
- The pillar committees allow for multiple perspectives from our stakeholders.
- The results of the state assessments we received this fall did not bring any surprises to our team.
