Data is displayed to the extent available for public reporting and is reflective of the student population. To protect the privacy of an individual student's identity or performance, the data tables include an asterisk (*) to indicate insufficient data. If no data is displayed, the data is unavailable for the year or population.

🏆 Academic Performance
How are students performing academically?
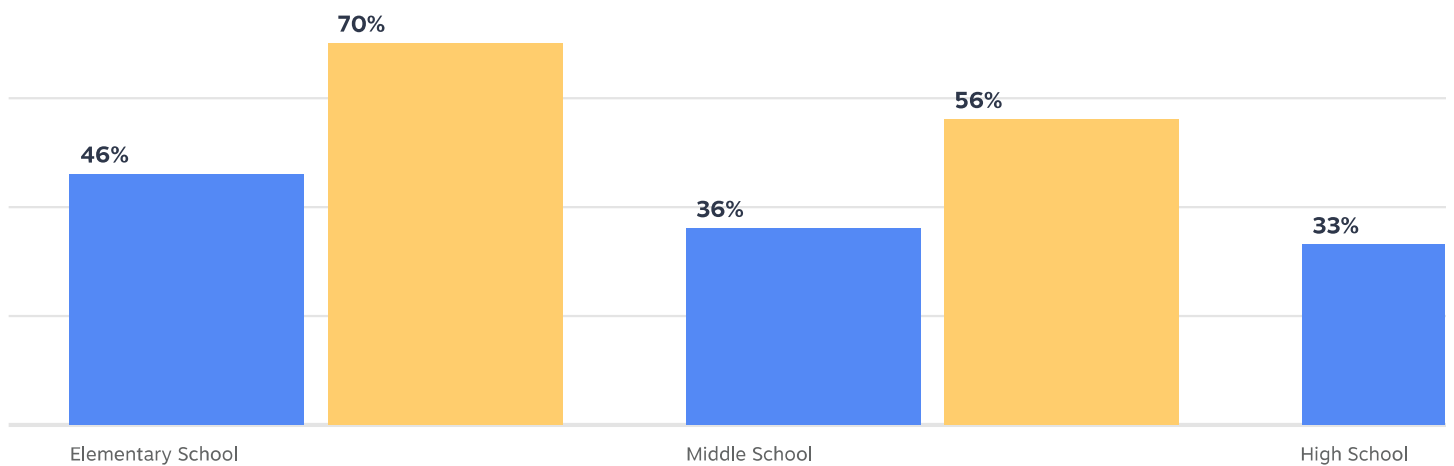

Assessment Results ❯

Students are assessed in grades 3-8, 10 and 11 in a variety of subjects on tests that were developed by Kentucky teachers. Students in grade 11 also take a college admissions exam. For each subject assessment, students are ranked as either Distinguished, Proficient, Apprentice or Novice. Comparisons may be made between school and district performances based on these performance scores.

Career and Technical Education ❯

Measures student and school performance in four performance areas under the federal Carl D. Perkins Career and Technical Education (CTE) Act. The measurements include academic and technical skills; earning a high school diploma; placement in, retention in and completion of postsecondary education, military service or employment; and participation in nontraditional CTE programs that lead to nontraditional training and employment.

Transition to Adult Life

How prepared are students for what comes next?

Graduates   ›

Unduplicated count of students with a graduation code in a school/district during the school year as reported in the Kentucky Student Information System. This count alone is not used to create Graduation Rate.
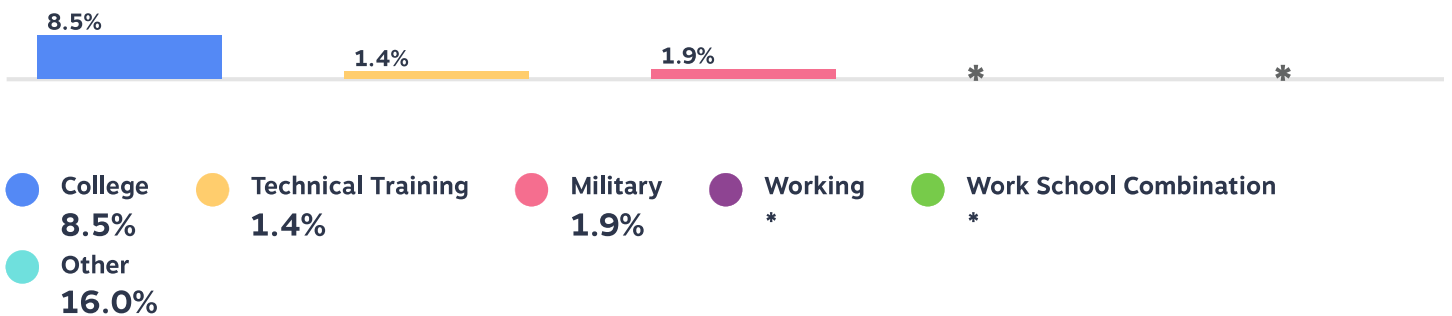

Career Readiness ›

Career Readiness measures include industry certifications, career and technical education end-of-program assessments, apprenticeships, career and technical education dual credit coursework, and exceptional work experience.

Transition to Adult Life ›

Transition to Adult Life indicators include information about how many students are involved in continuing education, employment or military service after graduation.
