- Using Technology
- Teaching Students with IEPs and 504 Plans

NEW TEACHER ACADEMY

A new teacher academy sets the bar for all new teachers to Garrard County Schools. “Teach them to teach.” However, there is plenty of room for a teacher to be unique and bring his/her own talents to the classroom. The academy provides monthly support for new teachers in the district.

Sessions are based on each part of the core curriculum and instruction agreement established in Garrard County Schools.

DISTRICT SUPPORT

In addition to providing the New Teacher Academy sessions, the district administrative team conducts monthly learning walks in the classrooms of new teachers. Feedback is provided to building administrators and new teachers. Follow-up sessions are provided for individual teachers, small groups, or in whole group academy sessions.
