

### Observation 3

Future Neighborhood Access –

Neighboring community recently informed school district of intention of making an entry onto the school grounds on the back northeast side of the property.

### Consideration 3

The current location could potentially invite intruders onto the property in proximity of students near cafeteria. With deliveries being made to this area, it would increase the potential of intruders attempting to gain access due to location. Work with all stakeholders to propose new location of entry at the front of the school where pedestrian traffic can be more easily monitored and potential threats can be more easily recognized.
