NFHS Network Board of Directors Meeting

**Takeaways to help  
Board and Staff**

In conjunction with the NFHS Winter Meeting, the NFHS Network Board of Directors held a meeting. As we have been fortunate to do since this project began in 2010, Kentucky is well represented on that board, and its Commissioner currently serves as the chair of that board.

Noteworthy at the meeting was the approval of extension documents for the life of the network that will ensure the Association continues to receive proceeds to fund its streaming operations and provide those broadcasts for a fee that generally is less than the ticket price. This extension was not discretionary, as the performance thresholds had all been met. The KHSAA is proud to have been on the ground floor of this project and while its performance metrics do not rank up there with more populous states, the quality of the broadcasts we have been able to produce and the pride in which the participants in our broadcasts take in their professionalism make us an example for the entire county.
