

Proposed Masonic Cornerstone for new Woodford County High School

Current Status: The dimensions provided by Trace Creek for the Cornerstone are 16 inches tall x 32 inches wide, which is smaller than the Grand Lodge of Kentucky's normal order of 23-5/8 inches tall x 47-5/8 inches wide. We're awaiting confirmation about the monument supplier's ability to scale down the engravings. Production takes 4-6 weeks and Grand Lodge prefers to conduct the dedications on Sunday afternoons. This would project earliest tentative ceremony dates on April 21 or April 28.
