INSTRUCTIONAL COACH REPORT (Ms. Winkler)

- Internal Labs occurred March 24-28. Elizabeth Winkler, Aaron Sary, Keith Graham, and Charlsie Wheatley hosted teachers within our building to generate discourse around the workshop model and thinking strategies. All participants walked away with great insights and hopefully a renewed sense of collective efficacy.
- Morgan Nilhas, our partner with Scholastic, will be visiting in mid April for her final trip to middle and high school. Based on the parameters of the KyCL Grant, we have twelve teachers currently working with her on implementing writing in the classroom. They submitted a lesson plan and she attended their classes, alongside Ms. Teegarden, to observe them in action.
- We have continued work with our essential standards during PLCs. We have begun writing more purposeful learning targets for our current standards. Our learning targets incorporate a thinking strategy with the content skill. We've also begun to work on establishing essential academic and social behaviors. We will begin explicitly teaching this next school year. Ms. Hicks is leading ERD for the remainder of the 23-24 school year.

GUIDANCE COUNSELOR REPORT (Mrs. McDougall)

- During the end of March, I proctored the EOP (End of Program) exams. Mr. Pelgen and I met to solidify the students who will be taking Dual Credit classes and Vocational School classes. We meet bi-weekly to check and statuses and contact parents if the student is behind.
- We are also finishing up MAP Testing during the first week in April. We are excited to see our growth from September!
