

JCPS Transportation Options

A photograph showing a school bus driver from the perspective of the passenger seat. The driver is a bald man with glasses and a goatee, wearing a yellow polo shirt. He is looking out the front window at another yellow school bus. The bus in front has "SCHOOL BUS" written on its front. The scene is outdoors with trees and a clear sky. A blue text box is overlaid on the bottom half of the image.

The District **must** reduce total number of bus routes.

After driver call ins, an estimated 475 drivers will be available for school year 24-25.

The image shows the front of two yellow school buses against a clear blue sky. The buses are positioned on either side of a central blue rectangular text box. Each bus has two large round headlights, one red and one amber, which are illuminated. The text box contains white text that reads: "The District Transportation Team has evaluated 16 different transportation models." The number "16" is bolded.

The District
Transportation
Team has
evaluated **16**
different
transportation
models.

Transportation Options for 2024 - 2025

On time	With delays	With delays	Not feasible
