VOLLRATH®

Vollrath 36150 Details

Provide a convenient serving area for hot food with the Vollrath 4-Series 36150 Signature Server® five well hot food station base with a stainless steel counter! The enclosed rectangular base is constructed of 18-gauge, 400-series stainless steel to withstand frequent use, and the reinforced, lightweight design ensures durability and mobility. Ideal for self-serve applications, this food station base is a sleek addition to any buffet, cafeteria, or other front-of-house area.

This model includes a 74" stainless steel top with 5 food wells to keep product hot and ready to serve. Both the top and the wells are constructed of durable 18-gauge stainless steel, and the wells are insulated with a 1 1/2" high-density glass fiber insulation for dry or moist operation. Independent Touch-Temp® programmable controls provide individual operation of each well, allowing food to be heated at different temperatures in one convenient location. This unit comes with 4" casters that allow mobility and make it easy to store the station out of sight or roll out when needed. Plus, they include brakes, so the station doesn't move unintentionally when actively in use.

Overall Dimensions:

Length: 74"

Width: 28"

Height: 30"

VOLLRATH®

Vollrath 36165 Details

Provide a convenient serving area for cold food with the Vollrath 4-Series 36165 Signature Server® refrigerated cold food station with a stainless steel counter! The enclosed rectangular base is constructed of 18-gauge, 400-series stainless steel to withstand frequent use, while the reinforced, lightweight design ensures durability and mobility. Ideal for self-serve applications, this food station base is a sleek addition to any buffet, cafeteria, or other front-of-house area.

This model includes a one-piece 60" top and a refrigerated well with foamed-in-place polyurethane insulation to keep product cold and ready to serve. Both the top and the well are constructed of durable 18-gauge stainless steel for long-lasting use, and a drain hose and valve on the operator side ensure proper draining of excess water. This station comes with 4" casters that allow mobility and make it easy to store out of sight or roll out when needed. Plus, they include brakes, so the station doesn't move unintentionally when actively in use. This unit uses eco-friendly R513A refrigerant and requires a 120V electrical connection for operation.

Cambro ES28RL110 Details

The Cambro ES28RL110 black cash register / equipment stand is a versatile solution for a variety of tasks! It's perfect for cash registers or computers at the end of a school lunch line, or to complete a self-serve salad bar concept. Other possible uses could be as an extra food preparation area--a microwave oven, slicer, blender, or other small kitchen appliance would fit nicely!

The Cambro ES28RL110 black cash register / equipment stand has rails on both sides, at a height of 34 1/2". Plus, they fold down when not in use for easy storage and increased flexibility. The Cambro ES28RL110 cash register / equipment stand is constructed from durable, one-piece polyethylene with polyurethane foam insulation for extra toughness. It also features a 2 1/2" opening in both the top and bottom shelves to allow cords and plugs to drop through. The open compartment between the top and bottom shelves is great for additional storage.

Other special features of this cash register / equipment stand with tray rails include a handy center drawer that slides out for convenient storage of cash, customer receipts, or accessories, and a cut-out design on the bottom shelf so you can sit or stand comfortably behind the stand without bumping your knees or ankles!

The Cambro ES28RL110 cash register / equipment stand with tray rails on both sides is easy to maneuver thanks to four 5" casters--two are fixed, and two are swivel designs with brakes.

Overall Dimensions:
