Kentucky Athletic Administrators Association Conference - Legal Session

**Takeaways to help
Board and Staff**

The Membership continues to show an overall desire for knowledge and assistance in their work along with compliance with the law (including the Bylaws and Policies). We are grateful for the opportunity to work with this organization to the benefit of the Commonwealth's student-athletes.

General Commentary

I was asked to present at this year's Kentucky Athletic Administrators Association Conference held in Louisville this April. The session I presented was titled "Current Legal Issues in Athletics". The focus of the presentation (and discussion) was general liability and defenses including sovereign immunity. There was also a discussion about Title IX and its recent changes as well as new developments in State and Federal Law. The room was full and left several people standing. More importantly, there was significant participation with the attendees.
